CATALOG

Daikin is one of the largest manufacturers of heating, cooling and refrigerant products in the world.

Daikin is recognized as one of the world leaders in the manufacture of HVAC equipment and refrigerants. For almost 100 years, Daikin has grown consistently and successfully due to the loyalty and success of our customers, as well as a track record of innovation and quality. Daikin is redefining home comfort in North America with some of the most technologically and aesthetically advanced solutions. These intelligent, energy efficient systems provide an unprecedented level of individual comfort and control.

Daikin is expansive in its manufacturing footprint. It is global, but with a local focus. We have operations around the world, with research and development, as well as production facilities in over 150 countries. Using our advanced technology and expertise, Daikin has earned a reputation for excellence as an indoor comfort specialist in countries and regions spanning the globe by providing solutions for the needs of our customers. In the United States, located just outside of Houston, Texas, the Daikin Texas Technology Park allows Daikin to consolidate manufacturing, engineering, logistics, marketing and sales in one location. The facility is designed to better serve customers, employees, and the environment.

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

* Complete warranty available from your local dealer or at www.daikincomfort.com. Limited Warranties vary by product model. To receive the 6-Year Unit Replacement Limited Warranty, the 10 or 12-Year Parts Limited Warranty, and/or 99-Year Heat Exchanger Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the 6 or 12-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

[†] If product installed in a commercial application, limited warranty period is 5 years.

^{††} If product installed in a commercial application, limited warranty periods will differ depending on the model.

^{†††} Registration not required if installed in a commercial or residential application.

Efficiency Standards – National and Regional

The newest U.S. Department of Energy (DOE) minimum efficiency changes go into effect on January 1, 2023, affecting all residential air conditioners and heat pumps we manufacture. The changes maintain regional standards that apply to Split System and Package Air Conditioners, with all metrics now based on the new metrics (SEER2/EER2/HSPF2). The DOE minimum efficiency standards include both national standards (which are based on date of manufacture) and regional standards (which are based on date of installation).

National Standards

- » Split system heat pumps (14.3 SEER2 / 7.5 HSPF2)
- » Single package air conditioner (13.4 SEER2)
- » Single package gas/electric heat pumps (13.4 SEER2 / 81% AFUE)
- » Single package heat pumps (13.4 SEER2 / 6.7 HSPF2)

Regional Efficiency Standards

Only air conditioners (both split system and single package) are subject to regional efficiency standards. The map to the right summarizes the national and regional efficiency standards.

Efficiency Standards – National and Regional (continued on next page)

Efficiency Standards – National and Regional (cont.)

Labeling

There are two methods to help identify products subject to regional standards. The first is the EnergyGuide label that is noticeably different, with the inclusion of the map of the United States that identifies where the equipment can be installed.

The second is a separate statement that will be on the rating plate or on a label next to the rating plate called the “Install Prohibited” statement. All products subject to regional standards have both the EnergyGuide label and the Install Prohibited statement.

NOTE: The Federal Trade Commission (FTC) originally required a range of SEER be placed on Split System products subject to regional efficiency standards. However, they reversed their decision and now only a single value is listed (since mid-2017). Products in inventory may have mixed EnergyGuide labels (some having a range, others having a single value for SEER). FTC does not require re-labeling of existing product.

EnergyGuide Labels Currently In Effect

EnergyGuide Labels with SEER

Efficiency Rating: XX.X*

Notice: Federal law allows this unit to be installed only in:

AR, AL, MS, CO, CT, DE, FL, GA, HI, IL, IN, IA, KS, KY, LA, ME, MI, MN, MO, NE, NH, NJ, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, WA, WI, WV, and U.S. territories.

For energy cost info, visit productinfo.energy.gov

For an equipment's efficiency rating, visit productinfo.energy.gov or call your contractor.

EnergyGuide Labels with SEER2

Efficiency Rating: XX.X*

Notice: Federal law allows this unit to be installed only in:

AR, AL, MS, CO, CT, DE, FL, GA, HI, IL, IN, IA, KS, KY, LA, ME, MI, MN, MO, NE, NH, NJ, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, WA, WI, WV, and U.S. territories.

For energy cost info, visit productinfo.energy.gov

For an equipment's efficiency rating, visit productinfo.energy.gov or call your contractor.

EnergyGuide Labels with SEER

Efficiency Rating: XX.X*

Notice: Federal law allows this unit to be installed in all U.S. states and territories.

For energy cost info, visit productinfo.energy.gov

For an equipment's efficiency rating, visit productinfo.energy.gov or call your contractor.

EnergyGuide Labels with SEER2

Efficiency Rating: XX.X*

Notice: Federal law allows this unit to be installed in all U.S. states and territories.

For energy cost info, visit productinfo.energy.gov

For an equipment's efficiency rating, visit productinfo.energy.gov or call your contractor.

Number SEER ≥ 15 (for 1.5 to 3.5 ton*) SEER ≥ 14.5 (for 4 to 5 ton**) can be installed in SouthEast

With map – subject to Regional Standards

No map – can be installed nationally

Can be installed in SouthWest
EER > 12.2 if 1.5 to 3.5 ton*
> 11.7 if 4 or 5 ton**
> 10.2 if SEER ≥ 16

Efficiency Standards – National and Regional (cont.)

What You Need to Know as a Distributor

DOE defines a distributor as “a person (other than a manufacturer or retailer) to whom a consumer product is delivered or sold for purposes of distribution in commerce.” Therefore, if you resell product for sale other than to an end user, you may be considered a distributor as opposed to a contractor or dealer (see definitions below).

Distributors are required to comply with the requirements:

1. Do not knowingly sell product that will be installed in violation of regional standards.
2. Conduct regional standards training for all employees and customers.
3. Maintain records for all units subject to the regional standards for a period of 54 months. These records are to include the outdoor unit manufacturer, model number, serial number, date of purchase, date of sale, customer name and delivery address if delivered.

What You Need to Know as a Contractor/Dealer

As a contractor or dealer, you will also be required to adhere to requirements of the DOE HVAC Regional Standards Enforcement Rules. DOE has defined a contractor as “a person (other than the manufacturer or distributor) who sells to and/or installs for an end user a central air conditioner subject to regional standards.” DOE has defined a dealer as “a type of contractor, generally with a relationship with one or more specified manufacturers.”

The contractor/dealer requirements include the following:

1. Do not knowingly install product that is in violation of regional standards.
2. Conduct regional standards training for all employees.
3. Maintain records for all units subject to the regional standards for a period of 48 months. These records to include the indoor and outdoor unit manufacturer and model number, outdoor unit serial number, distributor purchased from, date and address of installation.

Also important is that DOE defines “installation of a central air conditioner” as “the connection of the refrigerant lines and/or electrical systems to make the central air conditioner operational.”

Enforcement

Enforcement of the standards will be at least partially via complaints registered with the DOE. DOE has set up an email for reporting suspected violations directly to them at EnergyEfficiencyEnforcement@doe.gov, or suspected violations can be reported by phone, at (202) 287-6997.

All verified violations will require remediation and can result in stiff fines. Notices of Violation will be posted publicly by the DOE. Further, if a distributor or contractor/dealer is found to routinely violate the standards, manufacturers can be prohibited from selling products to that party.

Contractors, dealers and distributors should be aware that the DOE may request copies of documentation proving product sales and installations are in compliance. Records requested by DOE must be provided within 30 days.

Questions

Questions about the efficiency standards can be emailed to RegionalStandardsQuestions@daikincomfort.com.

IMPORTANT NOTE:

The information provided is a summarized overview and is not intended to provide a complete description of the DOE Regional Standards. For more information regarding the DOE Regional Standards and the enforcement of these standards, please visit: www.energy.gov/gc/legal-resources/office-assistant-general-counsel-enforcement/regional-standards-enforcement

R32

The right choice to replace R-410A.

Daikin is leading the industry with the switch to the next generation of refrigerants that have a lower Global Warming Potential (GWP) than R-410A: R-32.

Proven. Easy. Available. Efficient.

Step into the future of home comfort with Daikin's line of residential products. As a global leader in air conditioning, Daikin is committed to innovation that enhances your home comfort with the use of low global warming potential (GWP) R-32 refrigerant. Our new R-32 products have been designed to meet efficiency, reliability, and comfort needs, while helping reduce impact on the environment with a lower GWP refrigerant compared to R-410A.

- » **Innovation:** With R-32's lower global warming potential (compared to previous R-410A) you can reduce your impact on the environment while enjoying outstanding cooling and heating at home.
- » **Efficiency:** Daikin's use of R-32 refrigerant and our game-changing inverter technology provides overall energy efficiency, leading to low utility bills and energy consumption.
- » **Durability:** Daikin's legacy of over 100 years ensures each product is built to last, delivering reliable performance and comfort year after year.

- » **Intelligent:** Many Daikin systems integrate with smart home technologies, making it easy to control and optimize your home's climate.
- » **Peace of Mind:** Confident in our quality, Daikin offers robust limited warranties*, ensuring your investment brings long-term comfort and peace of mind.

Aligning with Goals of:

- » **Lower GWP refrigerant — reduce impact at the source:** Utilizing a refrigerant with lower Global Warming Potential (GWP) compared to conventional refrigerants, like R-410A.
- » **Sustainability:** Easy to top off, or clean and reuse on-site and easy to reclaim and recycle.

* Complete warranty details are available from your local dealer/contractor or at www.daikincomfort.com

WWW.R32REASONS.COM

Single and Multi-Zone Systems

Why Zoned Systems?

DAIKIN HAS A FOCUS AND TRACK RECORD OF QUALITY

With over 100 years of HVAC history since its founding, Daikin has created a global indoor comfort revolution with innovative new technologies and products that have brought firsts to the world. From the introduction of new compressor designs or new ways to precisely control refrigerant flow, Daikin strives to be a global leader by investing in technology. We bring this same focus on innovation to North America, applying our portfolio of product features from around the world to meet the unique or specialized applications we face in North America homes and businesses.

Optimal design and comfort for the or the whole home & light commercial applications

Integrated design

Daikin indoor single and multi-zone units offer homeowners a discreet, modern design. The unit's smooth curve blends beautifully with the wall resulting in an unobtrusive presence that matches virtually all interior décors.

Efficient and smart

Inside the single and multi-zone system is a highly intelligent system, with innovative features designed to reduce power consumption. Some units offer whisper-quiet performance down to 19* db(A) to further to your sense of comfort.

Intelligent eye

The intelligent eye occupancy sensor, available on select models, controls comfort and conserves energy. If the room is empty for 20 minutes it changes the set point to start saving energy. As soon as someone enters the room, it immediately returns to the original setting. Regular use of this feature can provide additional energy savings of up to 20% or more compared to units without this feature.

Daikin single and multi-zone systems offer dealers:

- » High-quality, energy-efficient comfort solutions
- » Opportunities to spend less time on installations and more time with new customers
- » Differentiated product offerings that deliver improved customer satisfaction
- » Outstanding limited warranties** and reduced call backs

*On SL fan speed in cooling mode

*ASURE

Adds value to homeowner's purchase. Provides the homeowner peace-of-mind that they have protected their investment and guaranteed their comfort system for the terms of their agreement against unplanned repair bills.

*See inside back cover for more information.

As an innovation leader, Daikin is laying the foundation for next generation technology with multiple cutting-edge core technologies. Forbes Magazine recognized Daikin as an innovation leader, putting Daikin on its list of the 100 Most Innovative companies in the world.

** Complete warranty details available from your local distributor or manufacturer's representative or at www.daikincomfort.com

A full range of styles and options for every home, and every room

Daikin single and multi-zone systems are an ideal solution to displace traditional systems in primary living spaces or for refurbishing and remodeling additional spaces. They have a modern design and are extremely quiet in operation.

Our heat pumps are all-in-one heating and cooling solutions, meaning comfortably warm in winter and cool in summer.

Adaptive Inverter Technology

Daikin's inverter technology is a true innovation in the field of climate control. The principle is simple: inverters adjust the power used to suit the actual requirement – no more, no less! Single & multi-zone systems deliver the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more compared to traditional fixed-speed ducted systems. This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Advanced Filtration

Long life, washable filters.

Heating Performance

Daikin systems provide heating performance with single and multi-zone Heating Seasonal Performance (HSPF2's) as high as 11.2, making Daikin systems efficient and effective even in extreme environments.

Whisper Quiet

Daikin systems feature low indoor and outdoor operating sound pressure levels - indoor sound pressure levels as low as 19* decibels (dB(A)) and outdoor sound pressure levels as low as 43* dB(A).

*On SL fan speed in cooling mode.

Key Features and Benefits

Superior Comfort Control

Indoor Unit Quiet Operation.

Sound levels are reduced by 2-3 decibels (dB) from the low fan speed for quieter and gentler heating and cooling.

Outdoor Unit Quiet Operation.

Outdoor unit sound levels can be reduced by 3dB for times when quieter operation is needed.

Intelligent Eye.

The intelligent eye is an infrared sensor with the ability to sense movement in the room. When you are in the room, the air conditioner operates normally. If you leave the room for more than 20 minutes the air conditioner automatically changes to an energy-saving operation. Using the intelligent eye, savings of up to 20% in cooling and up to 30% in heating can be achieved compared to units without this feature.

Automatic Operation.

For unattended year-round comfort, this function allows the unit to automatically switch between heating and cooling modes as required. (heat pumps types only)

Program Dry Function.

This gives priority to reducing the level of humidity in the room rather than room temperature.

Auto Fan Speed.

To reduce operating sound and power consumption, the fan speed is automatically controlled by the micro-processor to suit the controller setting and prevailing room temperature.

Hot Start.

When the heating operation starts or when the unit changes from cooling to heating there is no cold draft released into the room.

Hybrid Cooling.

Dehumidifies efficiently even in low cooling loads, and maintains dehumidification effect after the target temperature is reached.

Cold Climate

Daikin AURORA and ATMOSPHERA Models.

These systems have been designed to deliver effective heating performance to ambient conditions as low as -13°F WB (-25°C WB).

Low Ambient Cooling.

System is able to operate in cooling mode below 0°F DB (-17.7°C DB) outside temperature with field settings and/or optional accessories.

Lifestyle

Econo Mode.

Limits the maximum operating current and power consumption of the outdoor unit by approximately 30% during start-up. This saves energy and reduces the load on the electrical circuit when multiple electrical devices are used simultaneously.

Powerful Operation.

Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

Remote Controller with Back-lit Display.

Features a back-lit LCD and luminescent control buttons, allowing for easy viewing in dimly lit rooms.

Indoor Unit On/Off Switch.

A convenient on/off switch on the indoor unit allows you to start up the system even if you have misplaced the remote control or the remote control batteries are exhausted.

Simplified Maintenance.

The indoor unit has been re-designed for easier removal of the drain pan, blower wheel, and indoor fan motor (compared to other wall-mounted units).

Comfortable Airflow

Wide Angle Louvers.

Smoothly curved wide-angle louvers provide wide airflow coverage for effective heating and cooling no matter where the indoor unit is placed within the room.

Draft Reduction.

This system directs warm air to the floor in winter and cool air across the room in summer for optimal efficiency and comfort. The large flap governs airflow direction while the small flap (or diffuser) swings, producing fine air currents that help circulate the air around the room.

Comfort Mode.

Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to keep cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

Key Features and Benefits

ECO+

An intelligent feature that ensures optimum energy consumption while fulfilling basic human comfort needs. Once activated, set temperature will be adjusted automatically to an optimum energy consumption level.

Vertical Auto-Swing (up and down).

The vertical auto swing automatically sweeps the air across the room in an up and down motion. When the unit is switched off, the louvers close automatically.

Horizontal Auto-Swing (left and right).

Automatically moves to ensure an even distribution of air throughout a room.

3-D Airflow.

Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Worry Free**Auto-Restart.**

The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Self-Diagnosis.

In the event that a problem develops with the unit, malfunction codes can be displayed on the liquid crystal panel of the remote control for fast and easy fault diagnosis.

Anti-Corrosion.

The special anti-corrosion coating on the outdoor unit heat exchanger provides resistance to salt damage and atmospheric corrosion.

Blue Fin Protection.

The hydrophilic coated fin ensures the condensate water moves easily to the drain pan — thus enhancing the cleanliness and lifespan of the cooling coil.

Comfortable and Clean**Titanium Apatite Photocatalytic Air-Purifying Filter.**

This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit. The filter can last for up to three years without replacement if washed once every six months.

CLEAN Operation.

The CLEAN function dries the interior of the indoor unit to reduce the amount of condensation present. When COOL or DRY operation is performed, condensation may occur inside the air conditioner. It is recommended to dry the inside of the air conditioner using CLEAN operation.

Wipe-Clean Flat Panel.

The flat panel models can be cleaned with only the single pass of a cloth across their smooth surface. The flat panel can also be easily removed for more thorough cleaning.

Timers**24-Hour On/Off Timer.**

The timer can be preset to start and stop the air conditioner at any time within a 24-hour period. Once the times are set, the air conditioner can be operated for a period by simply pressing the ON or OFF timer buttons.

Weekly Timer.

The weekly timer function makes it easy to enter up to four settings per day for each day of the week. The weekly timer function not only allows you to program on and off time, but also the desired temperature.

Night Set Mode.

Through the use of the 'Timer-OFF Circuit', the preset room temperature gently rises in cooling or falls in heating before the unit stops. This energy-saving feature allows you to sleep comfortably without feeling a sudden change in the room temperature, while at the same time saving energy.

Keeping Warm**Quick Warming Function.**

Prevents the compressor from pumping liquid refrigerant in low-ambient conditions. (Heat pumps only)

Automatic Defrosting.

Sensor performs automatic defrosting of the outdoor heat exchanger if necessary, ensuring optimum heating performance. (Heat pumps only)

Intelligent Defrost Mode

The outdoor unit will enable this mode to help prevent frost/ice from building up in cold climate conditions. It will also help with longer heating operation time for additional comfort for occupants (compared to HVAC systems without this function).

* Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com. To receive the 10-Year or 12-Year Parts Limited Warranty, online registration is not required in California, Florida, or Québec. The duration of warranty coverages in Texas and Florida differs in some cases. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

If product installed in a commercial application, limited warranty period is 5 years.

Control from Anywhere

Innovative Control Solutions

Navigation Remote Controller (Wired) BRC1NRV72 (R-32)

The *Navigation* Remote Controller offers scalable control architecture optimized for Daikin single zone, multi-zone and *SkyAir* systems. The wall-mounted controller features a back-lit LCD display as well as intuitive menus. The menu displays are available in English, French, or Spanish languages.

Hand-held Wireless Controller

Hand-held controllers, included with most indoor units, provide flexible control of Daikin single and multi-zone systems including: temperature control, operating modes, weekly programming, and more.

Easy-to-use

User-friendly interface makes it easy to set up a personalized program, adjust settings, and make adjustments anytime, anywhere.

Nature

Save money on utility bills and reduce energy consumption (as compared to non-scheduled systems) with the weekly schedule.

App for Wi-Fi control of your Single & Multi-Zone System*

Individual comfort and control.

Daikin systems come standard with an infrared remote controller allowing you to access all functions at the click of a button.

From anywhere in the world. Or your living room.

It can happen to anyone. You forgot to change the temperature of your heat pump system or air conditioner before leaving the house, or you will be delayed returning home and wish to avoid needlessly heating or cooling your home. What in the past would have resulted in wasted energy is no longer a problem. With the *SkyportHome* App, you are always in control. You can use your tablet or smart-phone to access your Daikin system via the internet*.

*Requires purchase and installation of adapter (KRP067A41E).

*May require purchase of Daikin *ONE+* or *ONETouch* smart thermostats, depending on the system.

Control from Anywhere

Innovative Control Solutions (cont'd)

Daikin *ONE+* smart thermostat

The Daikin *ONE+* smart thermostat is now available for select single and multi-zone indoor unit models. With the new translation adaptor, connecting the Daikin *ONE+* smart thermostat provides several user features including remote monitoring, control and geofencing using the *SkyportHome* app, Google, and Amazon voice assistants. Learn more at www.daikincomfort.com.

** Note that the handheld remote should not be used together with the Daikin *ONE+* smart thermostat.

Daikin *ONE Touch* smart thermostat

The Daikin *ONE Touch* smart thermostat is the newest addition to the Daikin *ONE* ecosystem line of products, joining the Daikin *ONE+* smart thermostat as a control solution for Daikin's communicating unitary equipment, including Daikin *FIT*.

With customizable settings and the power to wirelessly control heating and cooling from anywhere, homeowners may never want to change their thermostat manually again. However, the touchscreen interface supports a user-friendly experience when they do. Additionally, voice control is possible with compatible Amazon and Google devices. Plus, every Daikin *ONE Touch* includes one year of *SkyportCare* at no added cost, allowing contractors to support their customers' systems remotely and offer homeowners additional peace of mind!

** Note that the handheld remote should not be used together with the Daikin *ONE Touch* smart thermostat.

Daikin *ONE Lite* smart thermostat

The Daikin *ONE lite* connected thermostat is a perfect solution for Daikin single and multi-zone products when a wall-mounted smart thermostat is needed. The *ONE lite* connected thermostat is compatible with most Daikin single and multi-zone systems+ and can be linked via Wi-Fi to the *SkyportHome* app for control.

** Note that the handheld remote should not be used together with the Daikin *ONE Lite* smart thermostat

Control from Anywhere

Innovative Control Solutions (cont'd)

Daikin *DKN Plus* Interface

The Daikin *DKN Plus* Interface (AZAI6WSPDKC) enables the energy-efficient control of Daikin air conditioners by a third-party thermostat or an automation system. With this interface, third party devices or systems can control the *SkyAir* indoor units through the DKN Cloud NA App via Wi-Fi, Cloud API, Modbus®, BACnet® MS/TP, or thermostat relay contacts. This interface can be commissioned easily through the DKN Cloud NA app via Bluetooth® Low Energy (BLE). Learn more at www.daikincomfort.com.

BACnet® is a trademark of ASHRAE.

Daikin *SplitXpress* Selection Tool

The new interactive *SplitXpress* mobile app and website provide a complete product selection tool to streamline system selection for single and multi-zone projects. Users can create equipment selections and add accessories / pricing details to quickly share quotes with customers. Available for free on the App Store (iOS) and Google Play (Android), and at <https://splitxpress.daikincity.com>.

Single Zone Systems

Daikin *ENTRA* (R-32)

Wall-Mounted Heat Pump

18 SEER2 | Up to 9 HSPF2 | Up to 11 EER2

Daikin *ENTRA* single zone inverter wall-mounted systems provide energy efficiency and comfort control with an affordable, cost-saving solution. These heat pump systems feature streamlined, wall mounted indoor units paired with quietly compact outdoor units.

Standard Features

- » Energy Efficient— Up to 18 SEER2, Up to 9 HSPF2, Up to 11 EER2 for efficient cooling and heating operation and reduced operating costs compared to conventional lower-efficiency systems.
- » Heating Range: 5° - 65°F
- » Cooling Range: 50° - 115°F

ECO+ – An intelligent feature that ensures optimum energy consumption while fulfilling basic human comfort needs. Once activated, set temperature will be adjusted automatically to an optimum energy consumption level

Titanium Apatite Photocatalytic Air Purifying Filter – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

Blue Fin Protection – The hydrophilic coated fin ensures the condensate water moves easily to the drain pan — thus enhancing the cleanliness and lifespan of the cooling coil.

Powerful Operation Mode – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

IDEAL SOLUTIONS FOR:

- » Renovations, remodeling and new construction
- » A perfect alternative to noisy and inefficient window or through-the-wall air conditioner units
- » Sun rooms, basements, attics, garages, hot or cold rooms, and more
- » Rooms where floor space comes at a premium or is not available for other application
- » Ceiling void or attic does not allow for a viable duct run option

Daikin **OTERRA 115V (R-32)**

Single Zone Heat Pump System

20 SEER2 | 9 HSPF2 | 12 EER2

Daikin *OTERRA* 115V** Heat pump provides comfort year round. *SIGNA* flareless adaptor makes installation easier and Faster. Quiet indoor and outdoor units makes it an ideal choice for living spaces.

Standard Features

- » *SIGNA* Flareless adaptor allows for a quick installation
- » Energy Efficient + Wi-Fi capable
- » Ease of Maintenance
- » Low GWP refrigerant and future focused with R-32 Refrigerant
- » Daikin Inverter Technology
- » Outstanding 12-Years Parts Limited Warranty*
- » Available in 9000 BTU and 12000 BTU capacities

*Please see page 4 for warranty disclaimers

Wide Angle Louvers – Smoothly curved

wide-angle louvers provide wide airflow coverage for effective heating and cooling no matter where the indoor unit is placed within the room.

Auto Fan Speed – To reduce operating sound and power consumption, the fan speed is automatically controlled by the micro-processor to suit the controller setting and prevailing room temperature.

Wipe-Clean Flat Panel – The flat panel models can be cleaned with only the single pass of a cloth across their smooth surface. The flat panel can also be easily removed for more thorough cleaning.

IDEAL SOLUTIONS FOR:

- » Rooms where floor space comes at a premium or is not available for other (or is limited in) installation applications
- » A great alternative to noisy and inefficient window or through-the-wall air conditioner units
- » Single zone spaces, bonus rooms, garage gyms, she sheds, man caves, replacement, renovations, remodeling, new construction, sunrooms, basements, attics, garages, hot or cold rooms, and more
- » Ceiling void or attic does not allow for a viable duct run

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

Daikin **OTERRA** With built in Wi-Fi

Wall-Mounted Heating & Cooling

21 SEER2 | Up to 10.2 HSPF2 | Up to 12.5 EER2

Daikin **OTERRA** Wall Mount Systems provide energy efficiency and comfort control with an affordable, cost-saving solution. Available in both heat pump and cooling only models, these systems feature streamlined, wall-mounted indoor units paired with quiet and compact outdoor units.

Standard Features

- » Energy Efficient – 21 SEER2, Up to 10.2 HSPF2, Up to 12.5 EER2 for ultra-efficient cooling and heating operation and reduced operating costs compared to conventional lower-efficiency systems.
- » Cooling Range: 50°F DB to 118°F DB (10° C DB to 48°C DB); for 9 and 12K, 50°F DB to 122°F DB (10°C DB to 50° C DB); for 18 and 24K. Extended operation to -4°F DB (-20°C DB) with facility setting and wind baffle.
- » Heating Range: 5°F WB - 65°F WB (-15°C WB - 18°C WB)

Optional Features

- » Wired controller
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

ECO+ – An intelligent feature that ensures optimum energy consumption while fulfilling basic human comfort needs. Once activated, set temperature will be adjusted automatically to an optimum energy consumption level

Blue Fin Protection – The hydrophilic coated fin ensures the condensate water moves easily to the drain pan — thus enhancing the cleanliness and lifespan of the cooling coil.

Simplified Maintenance – The indoor unit has been re-designed for easier removal of the drain pan, blower wheel, and indoor fan motor (compared to other wall-mounted units).

IDEAL SOLUTIONS FOR:

- » Renovations, remodeling and new construction
- » Sun rooms, basements, attics, garages, hot or cold rooms, and more
- » Rooms where floor space comes at a premium or is not available for other application
- » Ceiling void or attic does not allow for a viable duct run option
- » Cooling Only models are an excellent value for space not requiring heating

Our outdoor unit drain pans have up to 16 holes which allows for effective drainage of condensation. In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

Daikin *AURORA*

Wall-Mounted Heat Pump

Up to 21 SEER2 | Up to 10.5 HSPF2 | Up to 12.2 EER2

R32

Living in colder climates doesn't mean a heat pump isn't a viable option to heat each space in your home or business, nor does living in warmer climates preclude the use of a heat pump as a viable option for cooling. The outdoor units of this Daikin *AURORA* heat pump system have been redesigned to withstand extreme weather conditions, even when it is down to -13°F WB (-25°C WB) or up to 115°F DB (46°C DB) for year round comfort.

Standard Features

- » Energy Efficient – Up to 19.8 SEER2, 10 HSPF2, 12 EER2
- » Up to 100% rated cooling capacity at 104°F DB (40°C DB).
- » Cooling Range: 50° - 115°F (Extended operation to -4° - 115°F with facility setting and air adjustment grille)
- » Heating Range: -13° - 60°F
- » Redesigned PCB in the outdoor unit to withstand extreme conditions
- » Indoor Sound Pressure as Low as 19* dB(A)
- » Outdoor Sound Pressure as Low as 49 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

*On SL fan speed

Optional Features

- » Wired controller
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

Daikin *AURORA* heat pump for extreme weather conditions – Up to 100% rated heating capacity at 5°F WB (-15°C WB) and confirmed continuous operation, as low as -13°F WB (-25°C WB) ambient temperature.

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Titanium Apatite Photocatalytic

Air Purifying Filter – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

Comfort Mode – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Powerful Operation Mode – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

IDEAL SOLUTIONS FOR:

- » Hot & cold regions where homeowners want to enjoy a reliable, energy efficient source of heating and cooling
- » Cold regions where homeowners want to enjoy a reliable, energy efficient source of heat
- » Renovations, remodeling and new construction
- » Sun rooms, basements, attics, garages, hot or cold rooms, and more
- » Rooms where floor space comes at a premium or is not available for other application
- » Ceiling void or attic does not allow for a viable duct run option

Our outdoor unit drain pans have up to 14 holes which allows for effective drainage of condensation. In some cases, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

*Select heat pump models meet the **ENERGY STAR®** cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Daikin *AURORA*

Floor Mounted Single Zone Heat Pump System
19.5 SEER2 | Up to 12 EER2 | Up to 9.7 HSPF2

R32

Daikin *AURORA* floor-mounted units are simple to install and can be setup in various configurations, on the floor or hanging low on a wall. Its low height enables the unit to fit perfectly beneath a window. The airflow distribution pattern of Daikin's floor-mounted unit is ideal for heating or cooling a space, and is a perfect replacement to traditional radiant systems. For all regions, the outdoor units of this Daikin *AURORA* heat pump system have been redesigned to withstand extreme weather conditions, even when it is down to -13°F WB (-25°C WB) or up to 115°F DB (46°C DB) for year round comfort.

Standard Features

- » Energy Efficient – 19.5 SEER2, Up to 9.7 HSPF2, Up to 12 EER2
- » Up to 100% rated cooling capacity at 104°F DB (40°C DB).
- » Cooling Range: 50° - 115°F (Extended operation to -4° - 115°F with facility setting and air adjustment grille)
- » Heating Range: -13° - 60°F
- » Redesigned PCB in the outdoor unit to withstand extreme conditions
- » Indoor Sound Pressure as Low as 23* dB(A)
- » Outdoor Sound Pressure as Low as 49 dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting

*On SL fan speed

Optional Features

- » Wired controller
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

Daikin *AURORA* heat pump for extreme weather conditions – Up to 100% rated heating capacity at 5°F WB (-15°C WB) and confirmed continuous operation, as low as -13°F WB (-25°C WB) ambient temperature.

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Titanium Apatite Photocatalytic Air Purifying Filter – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

Comfort Mode – Comfort Mode operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Powerful Operation Mode – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

Our outdoor unit drain pans have up to 14 holes which allows for effective drainage of condensation. In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

Daikin **AURORA**

Single Zone FDMA Ducted Concealed Heat Pump
Up to 16 SEER2 | Up to 9 HSPF2 | Up to 11.1 EER2

R32

The Daikin **AURORA** FDMA ducted concealed ceiling unit provides a completely concealed installation, minimizing the impact on decor. Easily incorporate longer duct runs and high MERV filters with available external static pressures of up to .6 in. WG (150 Pa). For all regions, the outdoor units of this Daikin **AURORA** heat pump system have been redesigned to withstand extreme weather conditions, even when it is down to -13°F WB (-25°C WB) or up to 115°F DB (46°C DB) for year round comfort.

Standard Features

- » Energy Efficient – Up to 16 SEER2, Up to 9 HSPF, Up to 11.1 EER2
- » Up to 95% rated cooling capacity at 104°F DB (40°C DB) and efficient operation as high as 115°F DB (46°C DB) ambient temperature
- » Up to 100% rated heating capacity at 5°F WB (-15°C WB) and efficient operation as low as -13°F WB (-25°C WB) ambient temperature
- » Cooling Range 50° - 115°F (10° - 46°C) (Extended operation to -4° - 115°F (-20° - 46°C) with facility setting and air adjustment grille)
- » Heating Range -13° - 65°F WB (-25° - 18°C WB)
- » Outdoor Sound Pressure as Low as 50 dB(A)
- » Auto Changeover
- » Auto-Fan Speed control (with wired controller)
- » Self-Diagnostics with digital display
- » Drain Pan Inspection Port
- » Integral Lift Mechanism
- » Auto Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting
- » Compatible with Daikin **ONE** smart thermostats, **SkyportHome** App, or **DKN Plus** Interface

Daikin **AURORA heat pump for extreme weather conditions** – Up to 100% rated heating capacity at 5°F WB (-15°C WB) and confirmed continuous operation, as low as -13°F WB (-25°C WB) ambient temperature.

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

IDEAL SOLUTIONS FOR:

- » Renovations, remodeling and new construction
- » Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- » Ceiling void or attics which allow for a ducted solution with longer duct runs
- » Homeowners' requiring higher level of filtration
- » Homeowners' reluctance to use a visible wall or a floor mounted unit

DZK with R32 information "coming soon"

- » Increases the flexibility of the FDMA systems in both residential and commercial applications by adding a Zoning Box to an indoor unit fan coil
- » Allows several separate ducts to supply air to different individually-controlled zones.
- » The DZK BACnet® Interface will work with any BACnet/IP compatible Building Management System

DZK
DAIKIN ZONING KIT

Our outdoor unit drain pans have up to 14 holes which allows for effective drainage of condensation. In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

Daikin *POLARA*

Wall-Mounted Heat Pump & Cooling Only
Up to 19 SEER2 | Up to 10 EER2

R32

Daikin *POLARA* is available in both cooling only and heat pump configurations. This feature-packed wall-mount unit offers extended capacity in an elegant design. Comfort Airflow, 3-D Airflow and Wide Angle Louvers are just a few of the features used in the new Daikin *POLARA* to improve comfort in a room.

Standard Features

- » Energy Efficient – Up to 19 SEER2, Up to 10 EER2 Up to 8.1 HSPF2 – Variable-Speed, Inverter, Compressor
- » Cooling Range: 50° - 115°F (Extended operation to -22° - -115°F with facility setting and air adjustment grille)
- » Heating Range: 5° - 65°F
- » Indoor Sound Pressure as Low as 38 dB(A)
- » Outdoor Sound Pressure as Low as 56 dB(A)
- » Power airflow dual flaps and 3-D Airflow
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self Diagnostics with Digital Display
- » Auto-Restart After Power Failure
- » Anti-Corrosion Heat Exchanger Treatment
- » Quick Warming Function
- » Hot Start Function
- » Automatic Defrosting
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

3-D Airflow – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Automatic Defrosting – Sensor performs automatic defrosting of the outdoor heat exchanger if necessary, ensuring optimum heating performance. (Heat pumps only)

Econo Mode – Limits the maximum operating current and power consumption of the outdoor unit by approximately 30% during start-up. This saves energy and reduces the load on the electrical circuit when multiple electrical devices are used simultaneously.

2-Area Intelligent Eye – The two-area intelligent eye sensor controls comfort in two ways. If the room is empty for 20 minutes, it changes the set point to start saving energy. As soon as someone enters the room, it immediately returns to the original setting. The intelligent eye also directs air flow away from people in the room to avoid cold drafts.

Program Dry Function – This gives priority to reducing the level of humidity in the room rather than room temperature.

IDEAL SOLUTIONS FOR:

- » Renovations, remodeling and new construction
- » Basements, attics and garages
- » Ceiling void or attic does not allow for a viable duct run option
- » New construction

Daikin *ATMOSPHERA* (R-32)

Single Zone Heating and Cooling System
Up to 27.4 SEER2 | Up to 11.2 HSPF2

R32

The Daikin *ATMOSPHERA* Single Zone System is ideal for spot cooling and heating needs in residential and commercial spaces that require heating and cooling even in extreme ambient temperatures. In addition, Daikin *ATMOSPHERA* is an effective source of heat to offset old, inefficient furnaces or boiler systems.

Standard Features

- » Energy Efficient – Up to 27.4 SEER2 / Up to 11.2 HSPF2 / Up to 16.3 EER for ultra-efficient cooling and heating operation and reduced operating costs compared to conventional lower-efficiency systems.
- » Enhanced Capacity –
 - Up to 100% rated heating capacity at 5°F WB (-15°C WB) and confirmed continuous operation as low as -13°F WB (-25°C WB) ambient temperature
 - Up to 100% rated cooling capacity at 115°F (46°C)
- » Aligning with Goals of –
 - Decarbonization and Electrification moving towards clean energy: An effective source of heat to comfortably offset older or inefficient sources of heat using fossil fuels
 - Lower GWP refrigerant reduce emissions at the source: Utilizing a refrigerant with lower Global Warming Potential (GWP) compared to conventional refrigerants

Hybrid Cooling – Dehumidifies efficiently even in low cooling loads, and maintains dehumidification effect after the target temperature is reached.

CLEAN Operation – The CLEAN function dries the interior of the indoor unit to reduce the amount of condensation present. When COOL or DRY operation is performed, condensation may occur inside the air conditioner. It is recommended to dry the inside of the air conditioner using CLEAN operation.

Daikin *ATMOSPHERA* heat pump for extreme weather conditions – Up to 100% rated heating capacity at 5°F WB (-15°C WB) and confirmed continuous operation, as low as -13°F WB (-25°C WB) ambient temperature.

Daikin Comfort Control – With the Daikin Comfort Control app you are always in control. You can use your tablet or smart-phone to access your Daikin *ATMOSPHERA* system via the internet, no adaptor required.

3-D Airflow – Combines vertical and horizontal auto-swing to circulate cool/warm air to the corners of large spaces.

Simplified Maintenance – The indoor unit has been re-designed for easier removal of the drain pan (compared to other wall-mounted units).

Powerful Operation – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

Intelligent Eye – An infrared sensor with the ability to sense movement in the room. If the room is empty for 20 minutes, it changes the set point to start saving energy.

Increased Factory Charge and piping allowances – Daikin *ATMOSPHERA* is pre-charged to serve piping lengths up to 49 ft. (15m), a 50% increase in pre-charge coverage compared to previous models.

Hot Start – When the heating operation starts or when the unit changes from cooling to heating there is no cold draft released into the room.

IDEAL SOLUTIONS FOR:

- » Primary living areas (for example, master bedrooms and living rooms)
- » Hot or cold rooms
- » Rooms with poor air flow

Multi-Zone Systems

Multi-Zone Systems

Zoned comfort control

Homeowners fight over temperatures in their homes and have rooms that go unused for long periods. Now they can save energy and control temperatures independently in up to eight separate zones with a single outdoor unit. With available wall-mounted, concealed slim-duct, ceiling cassette, and floor-mounted indoor options, Daikin Multi-Zone Systems offer multiple indoor unit styles to meet all home comfort needs.

Heat or cool multiple spaces independently with 1 outdoor unit

- » Great installation flexibility and a wide choice of styles.
- » Wide range of outdoor units, to which up to 8 indoor units can be connected.
- » All indoor units can be individually controlled.
- » The discrete, robust outdoor unit can easily be mounted onto a roof or terrace, or simply to the outside wall.
- » It is possible to combine different types of indoor units.

Ideal Solutions for:

	Wall-Mounted	Ducted	Floor-Mounted
Primary living areas (master bedrooms and living rooms)	✓	✓	✓
Hot or cold rooms	✓	✓	✓
Rooms with poor air flow	✓	✓	✓
New construction	✓	✓	✓
Renovations and remodeling	✓	✓	✓
Secondary bedrooms, offices, garages, basements, attics, and sun rooms	✓	✓	✓
Rooms with soffit ceilings and areas that require short duct runs		✓	
Units can be installed in conditioned spaces or in unconditioned spaces if unit is properly insulated.		✓	
Desire of innovative design and features	✓		

Compatible Indoor Units:

CTXV/FTXV - Discreet wall-mounted unit providing high efficiency and comfort

- » Discreet, stylish front panel blends easily with the wall, and matches all interior decors
- » Dry program allows humidity levels to be reduced without variations in room temperature
- » Built in Wi-Fi - Connect to *SkyportHome* without any added accessories

FVXV - Floor mounted unit for optimal heating comfort thanks to dual airflow

- » Its low height enables the unit to fit beneath a window
- » Can be installed against a wall or recessed
- » Vertical auto swing moves the louver up and down for efficient air and temperature distribution
- » Built in Wi-Fi

CDMA/FDMA - Ducted concealed unit capable of up to .6 esp

- » Higher external static pressure capabilities allow for longer duct runs and easily implementing up to MERV 13 filters (compared to units with lower static pressure)
- » Drain Pan inspection port makes it easy to observe drain pan conditions
- » Rear or bottom return air configurations for installation flexibility
- » Outside air integration possible

CMXV - Ducted Multi-Position Vertical / Horizontal

- » Traditional indoor style with modern comfort at the core.
- » Wi-Fi integration for true zoned comfort and control.
- » Optimized to fit existing ductwork designs.
- » Simplified control installation.
- » Heat Strip connection for cold climate back up.
- » Improve air quality with large media filters or Indoor Air cleaner integration.
- » Flexible Up, Down, Left or Right installation.
- » Install as many air handlers as needed to optimize home comfort.
 - EG - Mix 2 air handlers + a mix of other indoor unit styles as needed.
- » No Daikin *ONE* translation adaptor needed.
- » Simple connection for Daikin *ONE* Controls

Multi-Zone Systems

OUTDOOR UNITS (MXTH, MXT)

Daikin *AURORA* | Up to 20 SEER2 | Up to 9.7 HSPF2

R32

The Daikin *AURORA* multi-zone system is a flexible solution for individual zone comfort. Connecting Up to 5 indoor units to a single outdoor unit reduces installation space and costs while maximizing comfort and energy efficiency. With a choice of 4 Indoor unit types in a wide range of capacities, For all regions, the outdoor units of the multi-zone *AURORA* heat pump system have been redesigned to withstand extreme weather conditions with excellent energy efficiency ratings.

Standard Features

- » Multi-Zone comfort: One outdoor unit connects up to four separate fan coils individually controlled
- » Energy Efficient – Up to 21 SEER2; up to 10 HSPF2; up to 12.5 EER2 – Variable-Speed, Inverter, Compressor
- » Cooling Range 14° - 115°F
- » Heating Range -13° - 60°F
- » Up to 100% rated heating capacity at -5°F WB (-20°C WB) with confirmed continuous operation down to -13°F WB (-25°C WB)
- » Quick and easy installation
- » Precision temperature control for individual rooms
- » Space-saving design
- » Quiet operation
- » Fully optimized for R-32 refrigerant
- » World renowned Daikin Inverter "Variable-Speed" compressor technology
- » 100% cooling capacity at 115F
- » Available with or without Factory installed Drain Pan heater. MXTH models include Drain Pan heater

*Select heat pump models meet the **ENERGY STAR®** cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Daikin *AURORA* heat pump for extreme weather conditions – Up to 100% rated heating capacity at -5°F WB (-20°C WB) and confirmed continuous operation, as low as -13°F WB (-25°C WB) ambient temperature.

Outdoor Unit Quiet Operation – can reduce sound levels by 3dB for times when quieter operation is needed.

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Intelligent Defrost Mode* – The outdoor unit will enable this mode to help prevent frost/ice from building up in cold climate conditions. It will also help with longer heating operation time for additional comfort for occupants (compared to HVAC systems without this function).*available on 4MXL only

IDEAL SOLUTIONS FOR:

- » Primary living area (master bedrooms and living rooms)
- » Hot or cold rooms
- » Rooms with poor air flow
- » Renovations and remodeling
- » Basements, attics and garages
- » New construction
- » Whole Home Zoned Comfort

2MXT (H) outdoor unit drain pans have up to 14 holes which allows for effective drainage of condensation.

In some case, this improved drain pan design eliminates the need for drain pan heaters, resulting in higher efficiencies in low ambient temperatures.

New Drain Pan – 3MXT (H), 4MXT (H), 5MXT (H) newly designed drain pan on outdoor unit to help prevent condensate from freezing and causing damage to the fan and coil.

Multi-Zone Systems

OUTDOOR UNITS

Daikin MXM series | Up to 21 SEER2 | Up to 10 HSPF2

R32

The Daikin Multi-Zone System is a flexible solution for individual zone comfort. Connecting up to 5 indoor units to a single outdoor unit, without the use of branch provider (BP) boxes, reduces installation space and costs while maximizing comfort and energy savings. With a choice of six indoor unit types in a wide range of capacities, Daikin Multi-Zone Systems allow mixed and matched combinations.

Standard Features

- » Multi-Zone comfort: One outdoor unit connects up to five separate fan coils individually controlled
- » Energy Efficient – up to 21 SEER2; up to 10 HSPF2; up to 12 EER2 — Variable-Speed, Inverter, Compressor
- » Cooling Range 14° - 115°F
- » Heating Range 5° - 60°F
- » Quick and easy installation
- » Precision temperature control for individual rooms
- » Space-saving design
- » Quiet operation
- » Fully optimized for R32 refrigerant
- » World renowned Daikin Inverter "Variable-Speed" compressor technology
- » Intelligent Defrost Mode*: The outdoor unit will enable this mode to help prevent frost/ice from building up in cold climate conditions. It will also help with longer heating operation time for additional comfort for occupants (compared to HVAC systems without this function). *available on 5MXM only

*Select heat pump models meet the **ENERGY STAR®** cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

5MXM

2/3/4MXM series models feature an enhanced drain pan with optimal drainage for reduced ice build-up in extreme conditions.

New Drain Pan – 5MXM newly designed drain pan on outdoor unit to help prevent condensate from freezing and causing damage to the fan and coil.

IDEAL SOLUTIONS FOR:

- » Entire homes or floors of homes
- » Multiple zones
- » New construction
- » Primary living areas (master bedrooms and living rooms)
- » Basements

A ducted concealed ceiling unit provides a completely concealed installation, minimizing the impact on decor. Easily incorporate longer duct runs and MERV filters with available external static pressures of up to 0.6.

Standard Features

- » Indoor Sound Pressure as low as 32 dB(A)
- » Auto-Fan Speed control (with wired controller)
- » No optional adaptor needed for DIII-connection, link your unit into the wider building management system
- » Self-Diagnostics with digital display
- » Drain Pan Inspection Port
- » Integral lift mechanism
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

Program dry function – This gives priority to reducing the level of humidity in the room rather than room temperature.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

DZK
DAIKIN ZONING KIT

- » Increases the flexibility of the FDMA systems in both residential and commercial applications by adding a Zoning Box to an indoor unit fan coil
- » Allows several separate ducts to supply air to different individually-controlled zones.
- » The DZK BACnet® Interface will work with any BACnet/IP compatible Building Management System

IDEAL SOLUTIONS FOR:

- » Renovations, remodeling and new construction
- » Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- » Ceiling void or attics which allow for a ducted solution with longer duct runs
- » Homeowners requiring higher level of filtration
- » Homeowners' reluctance to use a visible wall or a floor mounted unit

DZK with R32 information "coming soon"

BACnet® is a trademark of ASHRAE.

Multi-Zone Systems

INDOOR UNITS

Wall-Mounted | CTXV07AVJU9 and FTXV_AVJU9 R-32

CTXV/FTXV series is a discreet wall-mounted unit providing high efficiency and comfort.

Standard Features

- » Indoor Sound Pressure as low as 22* dB(A)
- » Power airflow dual flaps
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Weekly Timer
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Backlit Wireless Remote Controller
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Wi-Fi Included

Optional Features

- » Wired controller

Program Dry Function – This gives priority to reducing the level of humidity in the room rather than room temperature.

Econo Mode – Limits the maximum operating current and power consumption of the outdoor unit by approximately 30% during start-up. This saves energy and reduces the load on the electrical circuit when multiple electrical devices are used simultaneously.

Built-In Wi-Fi – Benefits of *Skyport*. Experience ultimate climate control with the new Wi-Fi Inside functionality. This built-in technology helps enhance your living space with comfort control from the palm of your hand or wherever you are.

Indoor Unit On/Off Switch – A convenient on/off switch on the indoor unit allows you to start up the system even if you have misplaced the remote control or the remote control batteries are exhausted.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

AZA16WSPDKC	Daikin <i>DKN Plus</i> Interface
DACA-CP1-1	Condensate Pump (Fits inside all Daikin indoor unit heads - 33 ft head - 22dB)
DACA-CP2-1	Condensate Pump (Higher ft head needs - 50 ft head - 38db)
DACA-CP3-1	Condensate Pump (Will not fit in certain unit size heads - 33 ft head - 22dB)
KAF970A46	Air-purifying filter with photocatalytic deodorizing function (without frame)
KRP928BB2S	Interface adaptor for DIII-NET
KRP067A41E	Adaptor for wired remote controller

Multi-Zone Systems

INDOOR UNITS

Multi Position Air Handler CMXV

R32

CMXV is a multi-position air handler for homes needing a broad ducted solution.

Standard Features

- » Traditional indoor style with modern comfort at the core.
- » Wi-Fi integration for true zoned comfort and control.
- » Optimized to fit existing ductwork designs.
- » Simplified control installation.
- » Heat Strip connection for cold climate back up.
- » Improve air quality with large media filters or Indoor Air cleaner integration.
- » Flexible Up, Down, Left or Right installation.
- » Install as many air handlers as needed to optimize home comfort.
–EG - Mix 2 air handlers + a mix of other indoor unit styles as needed.
- » No Daikin *ONE* translation adaptor needed.

Program Dry Function – This gives priority to reducing the level of humidity in the room rather than room temperature.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Automatic Operation – For unattended year-round comfort, this function allows the unit to automatically switch between heating and cooling modes as required. (heat pumps types only)

Auto Fan Speed – To reduce operating sound and power consumption, the fan speed is automatically controlled by the micro-processor to suit the controller setting and prevailing room temperature

Control Options:

- » Works with the Daikin *ONE* Touch and Daikin *ONE+* smart thermostats only!
- » Compatible with *SkyportHome*

Application Focus Area:

- » CMXV is ideal for whole home applications, large remodels and additions. CMXV offers True zoning and year round comfort.
- » Homes without ductwork; crawlspace or accessible attic space for adding ductwork to one floor, ductless units for other spaces
- » Premium replacement – Year round, whole-home comfort with true zoning
- » New Construction

Multi-Zone Systems

INDOOR UNITS

Floor-Mounted FVXV_AVJU9

R32

Floor-mounted units are simple to install and can be setup in various configurations, on the floor or hanging low on a wall. Its low height enables the unit to fit beneath a window. The airflow distribution pattern of Daikin's floor mounted unit is ideal for heating a space, and is a perfect replacement to traditional radiant systems.

Standard Features

- » Indoor Sound Pressure as low as 23* dB(A)
- » Washable Air Filter
- » Program Dry Function
- » Econo Mode
- » Powerful Operation Mode
- » Titanium Apatite Photocatalytic Air Purifying Filter
- » Backlit Wireless Remote Controller
- » Outdoor Unit Quiet Operation
- » Auto-Changeover
- » Auto-Fan Speed Control
- » Self-Diagnostics with Digital Display

*On SL fan speed

Optional Features

- » Wired controller
- » Compatible with Daikin *ONE* smart thermostats, *SkyportHome* App, or *DKN Plus* Interface

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Titanium Apatite Photocatalytic Air Purifying Filter – This filter combines the air-purifying filter and titanium apatite photocatalytic deodorizing filter in a single highly effective unit.

Program Dry Function – This gives priority to reducing the level of humidity in the room rather than room temperature.

Hot Start – (Heat Pump) When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft.

Powerful Operation Mode – Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

IDEAL SOLUTIONS FOR:

- » Cold regions where homeowners want to enjoy a reliable, energy efficient source of heat
- » Renovations, remodeling and new construction
- » Sun rooms, basements, garages, hot or cold rooms, attics where the walls tend to be lower, or wherever wall space is at a premium
- » Ceiling void or attic does not allow for a viable duct run option

SkyAir Products

SkyAir Heat Pumps and Air Conditioners

Quick and easy installation for a broad range of applications

SkyAir is the ultimate ducted and duct free solution for light commercial and residential whole house applications. Ranging from 18,000 Btu/h to 48,000 Btu/h, these innovative systems provide energy efficiency, technological reliability and installation flexibility.

SkyAir systems key features and benefits include:

- › DC fan motor improves efficiency compared to conventional AC motors.
- › Aero spiral fan and grille minimizes turbulence and increases sound reduction.
- › Reluctance brushless DC compressor increases efficiency compared to fixed-speed compressor technology.
- › Swing Compressor Model – Friction and refrigerant leakage are minimized for greater energy savings.
- › Long piping lengths up to 230 ft. allow layout flexibility.
- › Anti-corrosion treatment on the outdoor heat exchanger increases durability.
- › Low-Ambient cooling operation down to 0°F (with optional Air Adjustment Grille(s))

Model	
Wall-Mounted Units (FAA Type)	» For rooms with no false ceiling nor free floor space » Energy efficiency up to 8.2 SEER2 SEER2 and 7.8 HSPF2 » Wide angle louvers distribute comfortable airflow with Auto-swing function » Quiet operation as low as 31 dB(A) (on L fan setting)
DC Duct Concealed (FBA Type)	» Medium external static pressure (ESP) capabilities offer up to 0.8 "W.G. » DC fan motor provides improved efficiency » Three user selected fan speeds available plus fan "Auto" logic » Built-in condensate pump » Bottom access for easy service » Low profile design at less than 12" high
Round Flow Sensing Cassette (FCA Type)	» 18 configurable airflow patterns ensure ideal air distribution » 360° airflow and three room sensors enables optimized occupant comfort and efficiency » Lower air velocities provide better airflow distribution » Optional self-cleaning filter panel to automatically clean filters on a set schedule. » Condensate pump provided as standard
Multi-positional Air Handling Unit (FTA Type)	» Up flow, downflow, horizontal left or horizontal right configurations for the indoor unit » Designed for zero clearance on three sides and only 24" clearance on the front for service. » 100% heating capacity at -4°F (-20C) on systems up to 3 tons, without electrical heat » Field-installed electric heater options available from 3kW to 19 kW (electric heater connection kit part no.

- » *Energy-Intelligent* technology with variable-speed compressors for small offices, shops, retail, stores, restaurants, banks, or technical cooling
- » Provides reliable and high quality comfort with a smart use of energy and flexible installation and operation
- » Can provide total comfort over space heating and cooling needs

Wide range of simple and/or intelligent controllers to choose from

FAA_AAVJU RZA_AAVJU Wall-Mounted Unit

Sleek in design with comfort control features.

Standard Features

- » Energy efficiency up to 17.3 SEER2 and up to 7.8 HSPF2
- » Wide angle louvers distribute comfortable airflow
- » Auto-swing function ensures efficient air distribution
- » Front panel can be removed for easy cleaning
- » Quiet operation as low as 37 dB(A)
- » Optional wireless controller
- » Optional wired controller
- » Optional condensate pump

DC Duct Concealed

Sleek in design with comfort control features.

Premium Comfort Features

- » Medium external static pressure (ESP) capabilities offer up to 0.8 "W.G.
- » DC fan motor provides excellent efficiency
- » Three user selected fan speeds available plus fan "Auto" logic
- » Built-in condensate pump and drain pan inspection port
- » Bottom access for easy service
- » Low profile design at less than 10" high
- » Optional wired controller
- » Connect to Daikin Zoning Kit (Optional)

- » Increases the flexibility of the SkyAir systems in both residential and commercial applications by adding a Zoning Box to an indoor unit fan coil
- » Allows several separate ducts to supply air to different individually-controlled zones.
- » The DZK BACnet® Interface will work with any BACnet/IP compatible Building Management System

BACnet® is a trademark of ASHRAE.

Round Flow Sensing Cassette

Customizable comfort ideal for open plan applications.

Premium Comfort Features

- » 18 configurable airflow patterns ensure ideal air distribution for maximized comfort and savings
- » 360° airflow and three room sensors enables optimized occupant comfort and efficiency
- » Lower air velocities provide better airflow distribution
- » Optional self-cleaning filter panel to automatically clean filters on a set schedule.
- » Condensate pump provided as standard
- » Outside air integration possible

FTA_AAVJUD/A with RZA_AAVJU

Multi-Position Air Handling Unit

An intelligent alternative to traditional unitary systems.

Standard Features

- » Upflow downflow, horizontal left or horizontal right configurations for the indoor unit
- » Designed for zero clearance on three sides and only 24" clearance on the front for service.
- » 100% heating capacity at -4°F on systems up to 3 tons, without electrical heat
- » Field-installed electric heater options available from 3 kW to 19 kW
- » Factory installed disconnect switch

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

Daikin **ALTHERMA 3 H HT**

Air-To Water Heat Pump Systems

Take comfort to new heights

Daikin *ALTHERMA 3 H HT* goes beyond the traditional concept of heating and cooling. It creates a comfortable environment to help elevate the home and lifestyle of today's homeowners. As an all-electric air-to-water heat pump, it can provide heating, cooling, and domestic hot water (DHW) in one integrated system—helping reduce reliance on fossil fuel burning systems. For those replacing a traditional boiler or furnace, Daikin *ALTHERMA 3 H HT* delivers a fully electric solution that meets today's standards for efficiency and sustainability, making it a smart choice for homeowners who prioritize comfort, efficiency, and sustainability.

The Daikin *ALTHERMA 3 H HT* air-to-water heat pump system brings balance in the home. Combining energy efficiency, low GWP R-32 refrigerant, personalized comfort, and quiet operation, it's thoughtfully engineered for today and tomorrow. With this innovative technology, homeowners can not only upgrade their system but transform their home and elevate the cozy factor.

Sustainability

This all-electric system is designed to help reduce a home's carbon emissions, compared to fossil fuel burning systems. An added benefit if the electricity comes from renewable sources like solar and/or wind power.

All-Climate Operation

Daikin *ALTHERMA 3 H HT* operates reliably in various climates. Space heating + domestic hot water (DHW) is possible down to -18°F (-28°C) ambient. *ALTHERMA* is designed to produce high leaving water temperatures (LWT) of up to 158°F (70°C) and provide space cooling up to 109°F (43°C) ambient.

Energy Efficient

The Daikin *ALTHERMA* electric air-to-water heat pump provides an efficient, sustainable heating solution, supporting the transition away from fossil-fuel-based comfort systems toward all-electric energy.

Signature Technology

Daikin *ALTHERMA 3 H HT* air-to-water heat pump systems are designed with the latest technology and manufactured to exacting standards. Modern inverter-driven compressors and fan motors plus micro-processor controls deliver constant comfort and high efficiency performance.

Elevate possibilities

» **Outdoor unit with self contained R-32 refrigerant circuit:** No refrigerant inside the house.

» **Packaged solution with "Plumb-and-Play" installation:**

No refrigeration work required, just plumbing. The outdoor, indoor, and optional DHW tank are connected through water piping.

» **Application flexibility:**

Design for flexibility with the use of different indoor emitters for heating and cooling. Ideal for retrofit and new build applications.

Elevate comfort

Homeowners will enjoy year-round comfort:

» Able to produce water temperatures of up to 158°F (70°C)

» Operation range down to -18 °F (-28°C)

» High heating capacity at low ambient temperatures

Elevate quiet

Designed for quiet operation:

» **Standard sound mode:** the outdoor unit produces a sound pressure of 41 dBA at about 10 ft., somewhere between birds chirping and the inside of a library.

» The outdoor unit features an additional **low sound mode**. This mode helps reduce the sound pressure even further to 35 dBA, representing a reduction of half the sound level of the standard mode!

HEATING

COOLING

HOT WATER

One solution, multiple combinations

The Daikin *ALTHERMA* 3 H HT air-to-water heat pump system is designed to cover a wide range of hydronic applications, making it an excellent choice for replacing boilers and furnaces, especially in areas with low ambient temperatures. Once the outdoor unit is connected to the indoor unit, there is a range of system combinations, such as being paired with emitters already in the home like baseboards or radiators, or be integrated with heat pump convectors, hydronic air handlers, and in-floor radiant loops. The versatility extends to applications like new buildings, retrofits, and low-energy houses. This versatile space-saving system contributes to modern aesthetics complementing form and function.

(1) Heating capacity at maximum operating frequency, measured according to EN 14511, and valid for heated water range $\Delta T = 5.4\text{--}14.4^{\circ}\text{F}$.

(2) Cooling capacity at maximum operating frequency, measured according to EN 14511, and valid for chilled water range $\Delta T = 5.4\text{--}14.4^{\circ}\text{F}$.

(3) Depends on operation mode, refer to installation manual.

(4) Measured with a pressure drop of 3.35 ft Hd in the heating system at an operating condition of leaving water 116.6-131°F in a room with an ambient of 68°F. DB/WB 44.6°F/42.8°F.

(5) Value measured in an anechoic room at 3.28 ft distance from the unit. It is a relative value, depending on the distance and acoustic environment. The sound pressure level mentioned is measured with a pressure drop of 3.35 ft Hd in the heating system.

(6) Domestic hot water operation will be fulfilled by booster heater when $T_a > 95^{\circ}\text{F}$.

(7) Cooling $T_a 95^{\circ}\text{F}$ – LWE 64.4°F (DT = 9°F); Heating T_a DB/WB 44.6°F/42.8°F – LWC 95°F (DT = 9°F).

(8) The sound pressure level is measured via a microphone at a certain distance from the unit. It is a relative value depending on the distance and acoustic environment.

Refer to sound spectrum drawing document (available in the engineering manual and on www.daikincomfort.com) for more information. Condition: T_a DB/WB 44.6°F/42.8°F – LWC 95°F (DT = 9°F).

Daikin **ALTHERMA** Stainless Steel DHW Tank (optional)

- » Stainless steel domestic hot water tank
- » Available in 40, 50, and 80 gallons
- » High-quality insulation
- » Integrated recirculation connection
- » Connection for an optional anode
- » Integrated 3 kW electric booster heater with App functionality
- » NSF61 / 372 certification

Daikin *ALTHERMA*

Heat Pump Convectors (HPC)

What is a heat pump convector?

Daikin *ALTHERMA* heat pump convectors are indoor fan coils that can provide both heating and cooling to the space. These heat pump convectors can be combined with other emitter types like radiators, baseboards, and in-floor radiant loops, or can be used as a standalone emitter in a space.

How do they work?

Heat pump convectors work similar to a radiator, as both use convection to heat a room. A heat pump convector actively circulates heated air using a fan, while a traditional radiator heats a room by warming the air that rises from its hot surface. Daikin *ALTHERMA* heat pump convectors are designed to function at lower water temperatures. An air-to-water heat pump's space heating efficiency generally improves at lower operating water temperatures, which can result in direct energy savings for the end user.* Heat pump convectors can also be used for cooling by circulating chilled water through the unit. The integrated fan will circulate the cold air into the room while the built-in drain pan will collect any condensation

- » **Modulated airflow:** When there is less heating demand, the unit modulates its airflow to slow down the fan rate, and in the process, lowers the operational sound. Conversely, a standard ON/OFF fan running simultaneously at full speed can increase sound pressure.
- » **DC Inverter:** Daikin *ALTHERMA* heat pump convectors use the latest technologies to limit energy consumption down to 3W of standby power input.

Modulating vs. ON/OFF Airflow

The above illustrates the airflow of a modulating fan vs. a standard ON/OFF fan.

* See specifications on page 80-81 of this catalog for additional information.

Floor-standing heat pump convector

The floor-standing heat pump convector can provide heating and cooling; impresses with its low sound operations and slim design.

- » High heating/cooling capacity through forced convection
- » Right and left-hand side connections available
- » The slim design is not only discreet, it provides fast and high capacity operation.
- » Integrated thermostat and on-board fully modulating controller allows for independent operation and instant zoning using single hydronic loop.

High-wall heat pump convector

The high-wall heat pump convector is for heating and cooling with wall mounting, a modern and compact unit in which all valves are housed. Wall mounting saves space in the room.

- » This heat pump convector reaches the selected temperature quickly and maintains it consistently quietly, thanks to the continuously modulated fan.
- » Integrated thermostat and on-board fully modulating controller allows for independent operation and instant zoning using single hydronic loop.
- » Sound pressure 25 dB(A) at about 3 ft.

Daikin *ONE* Ecosystem

DAIKIN ONE ECOSYSTEM

Smart, connected comfort control.

Daikin offers a range of thermostats for residential and commercial needs, featuring a variety of capabilities such as Wi-Fi connectivity, touchscreen interfaces, humidification control, and two-way communication.

Daikin ONE+ Smart Thermostat

The first smart thermostat to offer full two-way communications with Daikin HVAC systems.

Daikin ONE Touch Smart Thermostat

All the same great features as the ONE+, but as a touchscreen-only option.

Daikin ONE Lite Connected Thermostat

The Daikin ONE lite compatible with most Daikin single and multi-zone systems and can be linked via Wi-Fi to the SkyportHome app for control.

Daikin D2271 Connected Thermostat

The D2271 delivers effortless control through SkyportHome, ensuring comfort and convenience from anywhere.

Daikin ONE Premium Air Cleaner

The Daikin ONE Premium Air Cleaner is an in-line air cleaner that treats home air for certain airborne particulate matter.

ROOM TEMPERATURE CATALYST

Daikin ONE Home Air Monitor

The Daikin ONE Home Air Monitor helps monitor the air quality within the whole home.

Daikin ONE Wireless RHT Sensor

Wireless Temperature and Humidity Sensor compatible with the Daikin ONE+ Smart Thermostat

The **home screen** displays the current temperature, the current system mode, and adjustment slider, as well as icons leading to the top level screens.

The **schedule screen** displays upcoming set-point changes and scheduled times. It also offers access to edit mode, where you can adjust the schedule.

The **away screen** displays energy saving set-points. Energy saving can be invoked manually or automatically when the mobile app recognizes everyone is away.

The **air quality screen*** displays indoor air quality levels when a Daikin ONE Home Air Monitor is connected. Outdoor air quality and weather will be displayed when connected to the internet and thermostat added in the mobile app under home location.

ACCESSORIES

Flush Mount Kit (DKIT-FLSH-ONE)
J-box Adaptor Plate Kit (DKIT-CONV-ONE)

Control is available through popular voice-activated speakers.

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Limited¹ Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

¹ 12-Year Limited Warranty is available for owner-occupied residences only. For multi-family and/or commercial applications, the warranty period is 5-years.

Daikin ONE+ Smart Thermostat

DAIKIN ONE ECOSYSTEM

The Daikin *ONE+* smart thermostat is an intelligent home air controller from the world's leading heating, ventilating, and air conditioning (HVAC) manufacturer. It is a cloud-connected hub of sophistication, integrated for controlling temperature, humidity, and air quality.

Product Features

- » The high-resolution color touch screen display is protected by the same toughened glass used in smart phones.
- » The anodized aluminum bezel and dial are precision manufactured. The surfaces have a fine bead blast with a warm hued anodized finish. The dial rotation is extraordinarily smooth because it rests on a bearing assembly typically found in precision instruments. A switch behind the dial enables users to return to the home screen from any menu with a single tap.
- » An integrated Wi-Fi radio connects to the internet (via a home router) to the *Skyport Cloud* and on to the *SkyportHome* app. The *Skyport* cloud will also seamlessly integrate with open smart home architectures, including Amazon Alexa and Google Assistant, enabling consumers to effortlessly use features such as voice control.
- » A thin LED light bar sits flush within the bottom surface and runs from edge to edge, delicately illuminating the wall beneath. Emitting a soft emotive glow, the light bar indicates the current system mode: red for heating, blue for cooling.
- » A number of screen savers are available, including an analog clock.
- » Built-in bubble level aids professional installation.

Technical Features

- » Analog dial
- » Capacitive touch screen
- » Backlit, 3.5 inch MVA TFT LCD display
- » Bi-directional communications protocol for controlling HVAC system
- » Bubble level (to aid installation)
- » 640 × 480 pixels × 24 bit RGB (full color screen)
- » Light bar indicates heating or cooling
- » Wi-Fi

Daikin ONE LITE Connected Thermostat

The Daikin ONE LITE connected thermostat is a perfect solution for Daikin single and multi-zone products when a wall-mounted smart thermostat is needed. The Daikin ONE LITE connected thermostat is compatible with most Daikin single and multi-zone systems and can be linked via Wi-Fi to the *SkyportHome* app for control.

Product Features

- » Compact, non-intrusive design suitable for most interior environments
- » Multifunction push buttons labeled for mode, fan, set-point up, set-point down
- » Wi-Fi-enabled connected thermostat that works with *SkyportHome* app (iOS and Android)
- » Voice control by Amazon Alexa and Google Assistant
- » Programmable schedule
- » Built-in temperature and humidity sensors
- » Indoor unit Control: Mode (Auto/Heat/Cool/Emergency Heat), Setpoint (Dual/Single), Fan Speed, Fan On/Auto (with minimum run time)
- » LED Mode indicator for heating and cooling
- » Dehumidification function (setup with *SkyportCare* app)
- » Error and maintenance notifications
- » Control and comfort functions: Away mode and geo-fencing
- » Over-the-air software update capable (requires Wi-Fi connection)
- » Compatible with *SkyportCare*
- » Setup is possible within the *SkyportCare* app via the Quality Install tool.

Technical Features

- » Backlit, 3.5 inch MVA TFT LCD display
- » Bi-directional communications protocol for controlling HVAC system
- » Multi-language support: English, Spanish, French (*SkyportCare* app only)
- » 1 Auxiliary Heat output (dry contact), configurable as a primary or secondary heat source for heat pump systems only.
- » Includes Translation adaptor for S21 systems. (Note this control is not for use with P1P2 systems).
- » FCC Certified/UL Listed
- » An optional trim plate (PSPAC-WPM-L) is available.

Daikin D2271

Connected Thermostat

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 5-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California, Florida, or Québec. The duration of warranty coverages in Texas and Florida differs in some cases. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

¹ 5-Year Limited Warranty is available for owner-occupied residences only.
For multi-family and/or commercial applications, the warranty period is 5-years.

The Daikin D2271 connected thermostat works seamlessly with the Daikin *ALTHERMA* 3H HT system, while also serving as a smart, compact solution for modernizing legacy HVAC systems and enabling hybrid installations alongside Daikin *FIT*. The D2271 delivers effortless control through *SkyportHome*, ensuring comfort and convenience from anywhere.

Product Features

- » Compact, non-intrusive design suitable for most interior environments
- » Multifunction push buttons labeled for mode, fan, set-point up, set-point down
- » Wi-Fi enabled connected thermostat with App Store® Apple iOS and Android™ app control
- » Voice control by Amazon Alexa and Google Assistant
- » Programmable schedule: 4 events, 7 days (*SkyportHome* app only)
- » Built-in temperature and humidity sensors
- » LED mode indicator for heating and cooling
- » Energy and comfort functions: Away mode, and geo-fencing (*SkyportHome* app only)
- » Over-the-air software update capable (requires Wi-Fi connection)
- » Outdoor environment monitoring: outdoor temperature, outdoor humidity, and weather forecast (*SkyportHome* app only)
- » *SkyportCare* app is available (recommended for commissioning and set-up). Set-up using buttons is possible but not recommended.

Daikin ONE Premium Air Cleaner

- » Magnetic door design ensures tool-less, easy access to filter components for quick and easy filter changes
- » Insulated cabinet to reduce risk of condensation.
- » The new Daikin ONE Premium Air Cleaner is a MERV 15 media filter that removes more than 85% of particles down to 0.3 microns*
- » Pleated media filter removes over 98% of Aspergillus fumigatus, Aspergillus versicolor, and Stachybotrys chartarum from the airstream*
- » Pleated media filter removes over 99% of Ragweed, over 72% of Cat Dander, and over 73% of Dust Mites from the airstream*
- » Extra deep, 5¼" pleated filter constructed of cellulose-free, hydrophobic polyolefin fibers
- » Designed for multi-position horizontal or vertical installations
- » Room Temperature Catalyst Degrades formaldehyde and ozone
- » Filter design features a structured density gradient for sustained efficiency over the life of the filter
- » Room Temperature Catalyst: Helps remove formaldehyde and ozone
- » Filter has a tight cabinet fit ensuring negligible air bypass
- » Filter frame designed with dual pull tabs for easy removal
- » Fully gasketed door for proper air seal

ROOM
TEMPERATURE
CATALYST

- » Heavy duty, 20 gauge, post-forming painted, corrosion-resistant door
- » All cabinet mounting holes are slotted and designed to line-up with original equipment flanges for time-saving installation
- » Filter should be changed once or twice a year based on conditions within the home

*Independent testing performed by LMS Technologies, Inc.

Daikin ONE

Home Air Monitor | DSEN-HAQA

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 1-Year Unit Replacement Limited Warranty online registration must be completed within 60 days of installation. Online registration is not required in California, Florida, or Québec. The duration of warranty coverages in Texas and Florida differs in some cases. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions. Additional requirements for annual maintenance are required for the 1-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

The Daikin *ONE* Home Air Monitor helps monitor the air quality within the whole home. Working with the Daikin *ONE* Ecosystem, it detects, visualizes, and supports action to help you improve the indoor air quality within your space.

Detect

- » The Daikin *ONE* Home Air Monitor will monitor and learn baseline air quality in the home, over 7 days, then provide a rolling 7-day average baseline.
- » When potential particulate and/or chemical events occur outside of this average baseline, the system will detect the potential deviation and send alerts to the Daikin *ONE+* or Daikin *ONE* Touch smart thermostat.

Visualize

- » From the Daikin *ONE+* or Daikin *ONE* Touch smart thermostat, visualize the estimated air quality in real-time directly on the thermostat or through the smartphone app.
- » Indoor Air Quality Event Monitor – from this option, see when particles or chemicals are elevated compared to the 7-day baseline to help to understand and control your air. The readings will include:
 - **Green** - typical concentrations in the home
 - **Yellow** - elevated concentrations in the home
 - **Orange** - very elevated concentrations in the home

Act:

- » With built-in Air Intelligence, the Daikin *ONE* Home Air Monitor and Daikin *ONE* Ecosystem provide adaptive solutions homeowners advance through their Daikin *ONE+* or Daikin *ONE* Touch smart thermostat based on air quality alerts.
 - Turn on the furnace or air handler to increase filtration through the high-efficiency Daikin *ONE* Premium Air Cleaner to address particles.
 - Turn on exhaust/ventilation or open a window to help reduce detected chemicals within the home.

AIR QUALITY

ORANGE READING

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Limited¹ Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

¹ 12-Year Limited Warranty is available for owner-occupied residences only. For multi-family and/or commercial applications, the warranty period is 5-years.

Daikin ONE

Wireless RHT Sensors

Daikin ONE Wireless RHT

The Daikin ONE Wireless Relative Humidity and Temperature (RHT) Sensor is a compact, wireless sensor designed to measure the average temperature and humidity between the sensor and the thermostat. It delivers thermostat-like functionality by sensing temperature and humidity conditions with control and monitoring through the *SkyportCare* app.

Up to 8 Daikin ONE Wireless RHT Sensors can be connected to a single Daikin ONE+ smart thermostat. Each sensor is battery-powered, requiring no wires, and can be easily mounted in any room, within the same controlled zone, to enhance comfort and efficiency compared to having only the Daikin ONE+ smart thermostat by itself.

Product Features

- » Cost-Effective, Thermostat-Like Control: Provides sensing only, but enables full control via the *SkyportHome* app-offering a smart, lower-cost alternative to installing additional thermostats without a physical display
- » Wireless & Battery-Powered: Easy to mount anywhere — no wiring needed
- » Zonal Comfort & Efficiency: Measures and averages temperature and humidity across rooms
- » Compatible only with Daikin ONE+ Smart Thermostat
- » Sub-GHz Communication: No Wi-Fi required
- » Battery Life: Up to 1 year
- » Pairing wizard for signal strength, sensor naming, and calibration
- » Multi-Sensor Support: Up to 8 sensors per thermostat
- » App Integration: Connect and monitor via *SkyportCare*
- » Smart Setup Wizard: Simplified pairing process for signal strength, sensor naming, and calibration
- » Location Range: Optimized for a 40ft*distance from the Daikin ONE+ Smart Thermostat in typical homes, with the flexibility for greater distances. Use the built-in pairing wizard to verify signal strength at your desired location before final mounting.

SkyportCare

R32

Model	DSEN-TH-BWS-A
Description	Daikin ONE Wireless RHT Sensor
Maximum Connections	8 sensors per Daikin ONE+
Power Requirements	CR2450 Lithium Cell Battery
Dimensions	1.64"L x 1.64"W x .69"H
Weight	3.3oz
Storage Temperature	-22°F to 122°F
Operating Temperature	35°F to 104°F
Humidity	5-95% RH
Compliance	FCC (sub-gig ISM radio)
Distance from Thermostat	40 ft (12m)*

Skyport Cloud Services

CONNECTED with SkyportCare

SkyportCare creates a digital connection between your Daikin heating, ventilation, and air conditioning (HVAC) system and your servicing contractor. You can enjoy peace of mind not only from verification of system installation* but from a 24/7 – 365 connection to Daikin Comfort Technologies cloud**.

With SkyportCare access, your servicing contractor has access to system health alerts, performance insights, diagnostics, and even remote access to your system(s) settings – with your approval. Unlock the benefits and peace of mind of a connected heating and cooling system today.

* Quality Install verifies system installation of Daikin unitary inverter products ** Requires continuous internet connection

Unitary – Whole Home Solutions

Daikin *FIT* System

DC6VS / DC9VS / DH9VS / DH7VS / DH6VS (R-32)

Quiet / Space-Saving / Efficient

All *FIT* units come standard with the following:

- » **Compact** – The trunk-style outdoor unit is perfect when installation space is limited.
- » **Inverter (Variable-Speed) Compressor** – Ideal indoor comfort and efficiency.
- » **Low dBA** – Reclaim outdoor space.
- » **Quiet-mode** – Provides enhanced acoustical comfort, up to 3 different sounds levels as low as 45 dB(A).
- » **Blue Fin Coat** – Long condenser coil life and reliability.
- » **Swing Compressor** – Quiet and dependable.
- » **Side panel access** – Ease of service.
- » **Lightweight** – Easy to handle.
- » **Wide operation range** – Daikin *FIT* systems can provide quiet and energy-efficient comfort throughout homes in North America.
- » **Proven and Future-focused** – Features R-32 low-GWP (Global Warming Potential) refrigerant.
- » **Outstanding** limited warranty.*

R32

BACKED BY A 12-YEAR PARTS LIMITED WARRANTY* AND A 12-YEAR UNIT REPLACEMENT LIMITED WARRANTY*

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California, Florida, or Québec. The duration of warranty coverages in Texas and Florida differs in some cases. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions. Additional requirements for annual maintenance are required for the 12-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

All *FIT* Heat Pumps include this additional technology:

- » **Intelligent Defrost Mode** – The outdoor unit will enable this mode to help prevent frost/ice from building up in cold climate conditions. It will also help with longer heating operation time for additional comfort for occupants (compared to HVAC systems without this function).
 - A selectable defrost backup heat option, when turned off, will lower power consumption during defrost.
- » **Advanced water-shedding drain pan** – Engineered with multiple drain holes and channels to help provide effective water shedding.
- » **Hot start technology** – When the heating operation starts or when the unit changes from cooling to heating there is no cold draft released into the room.
- » **Hot Gas Base Pan Technology*** – During heating operation hot gas base pan helps prevent ice accumulation in the drain pan by facilitating its removal, ensuring effective ice suppression.

*only applicable for DH9VS (All Tonnages) and DH7VS (5-Ton)

Daikin *FIT* System DC6VS / DC9VS / DH9VS / DH7VS / DH6VS (R-32) Quiet / Space-Saving / Efficient

UNITARY PRODUCTS

Application

A new solution for even the most unique projects

- » Perfect alternative to the traditional cube style unitary products in a 1:1 application
- » Mid-efficiency heat pumps can be applied across North America
- » Traditional homes, town homes, bungalows, condos, zero lot line homes, patios, terrace, and multi-story locations that would typically require a crane
- » Install using existing ductwork and existing line sets
- » Space-saving low profile trunk style outdoor unit for easy carrying and installation in tight spaces
- » Ease of service and maintenance with a quick-to-access side panel
- » DFVE Air Handler with 7 mm evaporator coils
- » Utilize EEV coil families:
 - CAPEA (Upflow/Downflow)
 - CHPEA (Dedicated Horizontal)
 - CAHEA (Multi-position, only DH9VS compatible)
- » Connects with any Daikin communicating gas furnace 80% and 90%+. When connected to the Daikin *FIT* Heat Pump, dual fuel capability is an option.
- » Compatible with the Daikin *ONE*+ and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Add the Daikin *ONE* premium air cleaner and/or the Daikin *ONE* Home Air Monitor for additional IAQ (Indoor Air Quality) control

Design

Compact footprint to meet design demands

With clearance space as little as 4" from a wall and compact size, the Daikin *FIT* system works when installation space is limited.

- » Fit more in your HVAC tech van or truck; 4 – 5 Daikin *FIT* units as opposed to 1 or 2 traditional systems
- » Easy to bring to the installation site and install on pad – the single fan unit can be transported by a single worker or on a dolly

Product Features

- » Daikin variable-speed swing compressors
- » Quiet digitally commutated fan motor
- » High-density compressor sound blanket
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Quiet Mode - provides enhanced acoustical comfort, up to 3 different sound levels (as low as 45dBA).
- » Daikin control algorithmic logic
- » Fully communicating system requiring only 2 low-voltage wires to outdoor unit
- » Diagnostic indicator lights, seven-segment LED display, and fault code storage

- » Daikin Inside intelligence for diagnostics
- » Field-selectable boost mode compressor speed during unusually high loads
- » Field-installed bi-flow filter drier
- » Coil and ambient temperature sensors
- » Suction pressure transducer
- » Sweat connection service valves with easy access to gauge ports
- » AHRI Certified; ETL Listed

To receive [6-Year or 12-Year] Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the [6-Year or 12-Year] Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » Daikin variable-speed swing compressors
- » Strong heating capacity (Met the requirements of the U.S. Department of Energy (DOE) Residential Cold Climate Heat Pump Challenge)*
- » Quiet digitally commutated fan motor
- » High-density compressor sound blanket
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Daikin control algorithmic logic
- » Fully communicating system requiring only 2 low-voltage wires to outdoor unit
- » Compatible with AHRI 1380 Demand Response functionality
- » Diagnostic indicator lights, seven-segment LED display, and fault code storage
- » Daikin Inside intelligence for diagnostics

- » Field-selectable boost mode increases compressor speed during unusually high loads
- » Quiet DCW outdoor fan motor
- » Fully charged for 15' of tubing length
- » Field-installed bi-flow filter drier
- » Coil and ambient temperature sensors
- » Suction pressure transducer (in cooling mode)
- » Sweat connection service valves with easy access to gauge ports
- » AHRI Certified; ETL Listed

*only applicable to 2 and 3 Tons

¹ Tested and rated in accordance with ANSI/AHRI Standard 210/240

² Wire size should be determined in accordance with National Electrical Codes; extensive wire runs will require larger wire sizes

³ Must use time-delay fuses or HACR-type circuit breakers of the same size as noted.

All DH9VS heat pump models meet the **ENERGY STAR®** cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Select DH9VS heat pump models meet the **ENERGY STAR®** requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Products that are recognized as the Most Efficient of **ENERGY STAR®** in 2025 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. Products that are recognized as the Most Efficient of **ENERGY STAR®** in 2025 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. EPA has not changed the requirement for Energy Star Most efficient for 2026 and hence they do not have a mark of Most Efficient 2026. However, products noted as Most Efficient 2025 comply with EPA requirements in 2026.

* Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

NOTES

- Always check the S&R plate for electrical data on the unit being installed.
- Installer will need to supply 3/8" to 1 1/8" adapters for suction line connections.
- Unit is charged with refrigerant for 15' of 3/8" liquid line. System charge must be adjusted per Installation Instructions Final Charge Procedure. (See table below for allowable line set diameter)

ENERGY STAR® Notes

* The **ENERGY STAR®** Most Efficient 2025 recognition applies only to systems with the Daikin *ONE+* smart thermostat with appropriate coil components to meet **ENERGY STAR®** criteria. Ask your contractor for details or visit www.energystar.gov.

** **ENERGY STAR®** and the **ENERGY STAR** mark are registered trademarks owned by the U.S. Environmental Protection Agency. **ENERGY STAR®** products are third-party certified by an EPA-recognized Certification Body. Products that earn the **ENERGY STAR®** prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency.

COMFORTABLE LIMITED WARRANTY* PROTECTION

Daikin *FIT* Air Handler DFVE (R-32) Multi-Position | Variable-Speed

Product Features

- » Electronic Expansion Valve (EEV) for cooling and heat pump applications.
- » 7mm evaporator coil tube size
- » Variable-speed ECM blower motor
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » CFM indicator
- » Thermostat provides adjustable low CFM for efficient fan-only operation
- » All-aluminum evaporator coil
- » Fault recall of six most recent faults
- » Improved humidity and comfort control
- » Optimized for use with R-32 refrigerant
- » AHRI certified; ETL listed
- » UL 60335 2-40 Compliant
- » Factory installed leak detection sensor designed for lifespan of coil
- » 3 kW – 25 kW electric heater kits

The Daikin brand DFVE Multi-Position, Variable-Speed Air Handler is part of our family of communicating units and optimized for use with the chlorine-free refrigerant, R-32. This unit's ECM indoor blower motor allows for a soft start and stop, which offers a quiet, efficient operation and helps reduce the cold blast of air upon heating start-up.

Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

CAPEA / CHPEA

All Aluminum Coils

- » Available in 1.5-Ton through 5-Ton capacities
- » Engineered for compatibility with Daikin *FIT* outdoor units
- » Electronic Expansion Valve (EEV) models feature
 - Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
 - Cooling and heat pump applications
 - Fault recall of six most recent faults
 - PID control loop for precision capacity control
- » Seamless integration to full suite of Daikin controls using communicating control board
- » Light weight all aluminum evaporator coil
 - 7mm evaporator coil tube size (CAPEA, CHPEA)
- » Air cleaner and humidifier integration capable (rules apply, refer to installation manual for details).
- » UV and rust resistant, 5VA rated thermoplastic drain pan with integrated secondary drain
- » Foil-faced insulation covers internal casing to reduce cabinet condensation
- » Single front access panel
- » Ships factory standard up flow with easy field conversion to downflow (CAPEA)
- » CHPEA is for horizontal applications
- » CAPEA is for upflow/downflow applications

The manufacturing entity reserves the right to discontinue, or change at any time, specifications or designs without notice or without incurring obligations.

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California, Florida, or Québec. The duration of warranty coverages in Texas and Florida differs in some cases. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Daikin *FIT* – CAHEA (R-32)

Cased Coil, Multi-Position

Product Features

- » All-Aluminum evaporator coil
- » Optimized for use with R-32 refrigerant including circuits and manifolds
- » R-32 sensor designed for the life span of the coil
- » CAHEA models feature:
 - » Factory-installed electronic expansion valve (EEV) for precise refrigerant control
 - Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
 - Cooling and heat pump applications
 - Fault recall of six most recent faults
- » EEV Control Box located inside coil
- » CAHEA include single front access panel
- » Multiposition, Upflow/downflow, horizontal applications
- » Horizontal or vertical configuration capabilities
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Galvanized, leather grain-embossed finish
- » Rust resistant, thermoplastic drain pans featuring a low water-retention design
- » DecaBDE-free thermoplastic drain pan with secondary drain connections
- » Drain pan rails designed to remove and reposition coils with ease without compromising structural integrity
- » UV-resistant drain pan
- » AHRI certified; ETL listed

The Daikin CAHEA Multi-Position, cased coil is part of our family of communicating units and optimized for use with the chlorine-free refrigerant, R-32. This unit's variable speed modular (MBVK)* blower motor allows for a soft start and stop, which offers a quiet, efficient operation and helps reduce the cold blast of air upon heating start-up.

*MBVK blower sold separately

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive [6-Year or 12-Year] Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the [6-Year or 12-Year] Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » Daikin variable-speed swing compressors
- » Quiet digitally commutated fan motor
- » High-density compressor sound blanket
- » Quiet Mode - provides enhanced acoustical comfort, up to 3 different sound levels (as low as 45dBA).
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Daikin control algorithmic logic
- » Fully communicating system requiring only 2 low-voltage wires to outdoor unit
- » Diagnostic indicator lights, seven-segment LED display, and fault code storage
- » Daikin Inside intelligence for diagnostics
- » Field-selectable boost mode increases compressor speed during unusually high loads
- » Field-installed bi-flow filter drier
- » Coil and ambient temperature sensors
- » Suction pressure transducer
- » Sweat connection service valves with easy access to gauge ports
- » AHRI Certified; ETL Listed

Flexible. Innovative. Advanced.

The DC9VS Daikin *FIT* AC is a high-performance, side-discharge inverter that delivers exceptional comfort without compromise. Engineered to integrate seamlessly with traditional ducted systems, it brings communicating inverter technology to the forefront of residential HVAC. Amid bulkier high-tier inverters, the Daikin *FIT*'s sleek, space-saving design provides a solution where conventional cube systems fall short.

DC7TC (R-32)

Air Conditioner | Up to 17.2 SEER2

Product Features

- » Two-Stage Copeland® Ultra-Tech scroll compressor
- » High-density foam compressor sound blanket
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Copeland® ComfortAlert™ built in diagnostics
- » Copper tube/enhanced aluminum fin coil - 5mm on 2.0-3.0T
- » Diagnostic indicator lights and fault code storage
- » Color-coded terminal strip
- » Quiet ECM outdoor fan motor
- » Fully charged for 15' of tubing length
- » Factory-installed filter drier
- » Ambient temperature sensors
- » High- and low-pressure switches
- » Sweat connection service valves with easy access to gauge ports
- » AHRI Certified; ETL Listed

When properly matched and installed, your communicating DC7TC Air Conditioner offers up to 17.2 SEER2 high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER2 units. In many applications, the efficiency of your DC7TC can be enhanced by using it in conjunction with a Daikin brand gas furnace that includes a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

DC3SE (R-32)

Air Conditioner, Up to 14.5 SEER2

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. Limited Warranties vary by product model. To receive the 6 or 12-Year Unit Replacement Limited Warranty and the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the 6 or 12-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » Energy-efficient compressor
- » Copper tube/ enhanced aluminum fin coil- 5mm diameter
- » Factory-installed filter drier
- » Sweat connection service valves with easy access to gauge ports
- » Enclosed contactor
- » High-pressure switch
- » Ground lug connection
- » Capacitors with extended life
- » AHRI Certified; ETL Listed

When properly matched and installed, your DC3SE Air Conditioner offers up to 14.5 SEER2 energy-efficient performance. The higher the SEER2, the greater the efficiency — and the lower the operating cost compared to lower SEER2 units. In many applications, the efficiency of your DC3SE can be enhanced by using it in conjunction with a Daikin brand gas furnace.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » Daikin variable-speed swing compressor
 - » Strong heating capacity (Met the requirements of the U.S. Department of Energy (DOE) Residential Cold Climate Heat Pump Challenge)*
 - » Suitable for high-ambient regions
 - » Quiet digitally commutated fan motor
 - » High-density compressor sound blanket
 - » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
 - » Daikin control algorithmic logic
 - » Compatible with AHRI 1380 Demand Response functionality
 - » Compatible with the *ONE* Ecosystem
 - » Intelligent Defrost Mode
 - » In communicating mode, only two low-voltage wires to outdoor unit required
 - » Diagnostic indicator lights, seven-segment LED display, and fault code storage
 - » Daikin Inside intelligence for diagnostics
 - » Quiet-mode - provides enhanced acoustical comfort, up to 3 different sound levels (as low as 45dBA)
 - » Field-selectable boost mode increases compressor speed during unusually high loads
 - » Field-installed bi-flow filter drier
 - » Coil and ambient temperature sensors
 - » Suction pressure transducer
 - » Sweat connection service valves with easy access to gauge ports
 - » Advanced water-shedding drain pan
 - » 3-Stage Heater Kit Available as a Field Installed Option
 - » Hot gas base pan eliminates extra drain pan heater down to 5°F
 - » Hot start technology
 - » AHRI Certified; ETL Listed
- *only applicable for 2 and 3 tons

All DH9VS heat pump models meet the **ENERGY STAR**® cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Select DH9VS heat pump models meet the **ENERGY STAR**® requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov

Products that are recognized as the Most Efficient of **ENERGY STAR**® in 2025 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. EPA has not changed the requirement for Energy Star Most efficient for 2026 and hence they do not have a mark of Most Efficient 2026. However, products noted as Most Efficient 2025 comply with EPA requirements in 2026.

* Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR**® criteria. Ask your contractor for details or visit www.energystar.gov.

NOTES

- Always check the S&R plate for electrical data on the unit being installed.
- Installer will need to supply 3/8" to 1 1/8" adapters for suction line connections.
- Unit is charged with refrigerant for 15' of 3/8" liquid line. System charge must be adjusted per Installation Instructions Final Charge Procedure. (See table below for allowable line set diameter)

(See additional **ENERGY STAR**® Notes page 106)

When properly matched and installed, the communicating Daikin *FIT* AURORA Heat Pump (DH9VS) variable-speed offers up to 21 SEER2 high-efficiency performance. The higher the SEER2, the greater the efficiency — and the lower the operating cost compared to lower SEER units. The performance of the DH9VS can be optimized in numerous applications by pairing it with a Daikin gas furnace or air handler equipped with a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

DH7TC (R-32)

Heat Pump

Up to 17.2 SEER2 | 8.2 HSPF2

Product Features

- » Two-Stage Copeland® UltraTech scroll compressor
- » High-density foam compressor sound blanket
- » Compatible with the Daikin ONE+ and Daikin ONE Touch smart thermostats and other Daikin communicating equipment
- » ComfortAlert™ built in diagnostics
- » Copper tube/enhanced aluminum fin coil - 5mm on 2.0-3.0T
- » Copper tube/enhanced aluminum fin coil - 7mm on 4.0-5.0T
- » Efficient, two-speed ECM condenser fan motor
- » Simple low-voltage wiring to outdoor unit in communicating mode
- » Diagnostic indicator lights and storage of six fault codes
- » Color-coded terminal strip for non-communicating set-up
- » High- and low-pressure switches
- » Time-delay technology with short-cycle protection to ensure quiet, reliable defrost
- » Factory-installed bi-flow liquid-line filter drier
- » Factory-installed suction-line accumulator
- » Factory-installed compressor crankcase heater
- » Factory-installed high-capacity muffler
- » Factory-installed coil and ambient temperature sensors
- » Grille-style sound control top design
- » Custom Nickel Gray powder-paint finish
- » 500-hour salt-spray tested
- » Wire fan discharge grille
- » Steel louver coil guard

When properly matched and installed, your communicating DH7TC Variable-Speed Heat Pump offers up to 17.2 SEER high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER units. In many applications, the efficiency of your DH7TC can be enhanced by using it in conjunction with a Daikin brand air handler that includes a variable-speed blower motor.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

- » Single panel access to controls with space provided for field-installed accessories
- » Sweat connection service valves with easy access to gauge ports
- » When properly anchored, meets the 2024 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)
- » AHRI Certified; ETL Listed

Flexible. Innovative. Technology. The Daikin *FIT* system is a side discharge, smart HVAC system that won't compromise on comfort and connects to ducted solutions traditional to the unitary market. In a market saturated with expensive high-tiered inverters, the system provides a premium mid-efficiency inverter at an affordable rate. The low profile of the outdoor unit offers solutions when a traditional cube style cannot.

¹ Tested and rated in accordance with AHRI Standard 210/240

² Wire size should be determined in accordance with National Electrical Codes; extensive wire runs will require larger wire sizes

³ Must use time-delay fuses or HACR-type circuit breakers of the same size as noted.

Select DH6VS heat pump models meet the **ENERGY STAR®** cold climate requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Select DH6VS heat pump models meet the **ENERGY STAR®** requirements. Please refer to product engineering manuals for additional information or visit www.energystar.gov.

Products that are recognized as the Most Efficient of **ENERGY STAR®** in 2025 prevent greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. EPA has not changed the requirement for Energy Star Most efficient for 2026 and hence they do not have a mark of Most Efficient 2026. However, products noted as Most Efficient 2025 comply with EPA requirements in 2026.

(See additional **ENERGY STAR®** Notes page 100)

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. Limited Warranties vary by product model. To receive the 6 or 12-Year Unit Replacement Limited Warranty and the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the 6 or 12-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » High-efficiency Copeland® scroll compressor
- » Advanced Copeland® CoreSense™ technology
- » Enhanced aluminum fin with coil-5mm diameter copper tubes in 1.5T-3.5 ton
- » Enhanced aluminum fin coil with 7mm diameter copper tubes 4.0-5.0 ton
- » Single-speed PSC condenser fan motor
- » High density foam compressor sound blanket
- » Time-delay technology to ensure quiet reliable defrost
- » Factory-installed bi-flow liquid line filter drier
- » Factory-installed suction line accumulator
- » Factory-installed compressor crank case heater
- » Factory-installed high capacity muffler
- » High- and low-pressure switches
- » High density foam compressor sound blanket
- » Service valves with sweat connections and easy access to gauge ports
- » Copper tube/enhanced aluminum fin coil
- » Fully charged for 15' of tubing length
- » Fully enclosed contactor
- » Capacitor with extended life
- » AHRI Certified; ETL Listed

When properly matched and installed, your DH5SE Heat Pump offers up to 16.0 SEER2 high-efficiency performance. The higher the SEER, the greater the efficiency — and the lower the operating cost compared to lower SEER2 units. In many applications, the efficiency of your DH5SE can be enhanced by using it in conjunction with a Daikin brand gas furnace or air handler.

This unit features a powder-paint finish over heavy-gauge galvanized steel that provides premium durability and excellent UV protection.

Product Features

- » Compatible with Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Heavy-duty stainless-steel tubular heat exchanger
- » Stainless-steel secondary heat exchanger
- » Self-calibrating modulating gas valve auto-configure for each installation
- » Durable Silicon Nitride igniter
- » Quiet variable-speed induced draft blower
- » Self-diagnostic control board with constant memory fault code history output to a dual 7-segment display
- » Color-coded low-voltage terminals with provisions for electronic air cleaner and humidifier
- » Efficient and quiet variable-speed airflow system gently ramps up or down according to heating or cooling demand
- » Multiple continuous fan speed options offer quiet air circulation
- » Auto-Comfort and enhanced dehumidification modes available
- » Can not be installed in California's South Coast Air Quality Management District (SCAQMD) and San Joaquin Valley Air Pollution Control District (SJVAPCD).
- » Certified for direct vent (2-pipe) or non-direct vent (1-pipe)
- » Easy-to-install top venting with optional side venting
- » Convenient left or right connection for gas and electrical service

The Daikin brand DR97MC Modulating gas valve, Variable-Speed blower motor and communicating furnace, features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system. This furnace is run-tested for heating or combination heating/cooling applications.

Not only will this furnace provide your family with years of reliable warmth in even the harshest winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 97% AFUE compared to lower AFUE furnaces.

- » Cabinet air leakage (Q_{Leak}) $\leq 2\%$
- » Heavy-gauge steel cabinet with durable finish
- » Fully insulated heat exchanger and blower section
- » Airtight solid bottom or side return with easy-cut tabs for effortless removal in bottom air-inlet applications

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, [6-Year or 12-Year] Unit Replacement Limited Warranty, and 99-Year Heat Exchanger Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the [6-Year or 12-Year] Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

DD96TC (R-32)

Gas Furnace, Up to 97% AFUE

Product Features

- » Compatible with Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Heavy-duty stainless-steel tubular heat exchanger
- » Stainless-steel secondary heat exchanger
- » Self-calibrating modulating gas valve auto-configure for each installation
- » Durable Silicon Nitride igniter
- » Quiet variable-speed induced draft blower
- » Self-diagnostic control board with constant memory fault code history output to a dual 7-segment display
- » Color-coded low-voltage terminals with provisions for electronic air cleaner and humidifier
- » Efficient and quiet variable-speed airflow system gently ramps up or down according to heating or cooling demand
- » Multiple continuous fan speed options offer quiet air circulation
- » Auto-Comfort and enhanced dehumidification modes available
- » Can not be installed in California's South Coast Air Quality Management District (SCAQMD) and San Joaquin Valley Air Pollution Control District (SJVAPCD).
- » Certified for direct vent (2-pipe) or non-direct vent (1-pipe)
- » Easy-to-install top venting with optional side venting
- » Convenient left or right connection for gas and electrical service

The Daikin brand DR96TC Two-Stage gas valve, Variable-Speed blower motor and communicating systems furnace provides exceptional indoor comfort and quiet operation, features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system.

Not only will this furnace provide your family with years of reliable warmth in even the harshest winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 97% AFUE compared to lower AFUE furnaces.

- » Cabinet air leakage (Q_{Leak}) $\leq 2\%$
- » Heavy-gauge steel cabinet with durable finish
- » Fully insulated heat exchanger and blower section
- » Airtight solid bottom or side return with easy-cut tabs for effortless removal in bottom air-inlet applications

Product Features

- » Heavy-duty stainless-steel tubular heat exchanger
- » Super-ferritic Stainless-steel secondary heat exchanger
- » Single-stage gas valve
- » Durable Silicon Nitride igniter
- » Multi-speed blower motor
- » Quiet multi-speed induced draft blower
- » Self-diagnostic control board with constant memory fault history output to a 3-digit 7 segment LED display and push buttons
- » Energy-efficient multi-speed (variable-speed) ECM blower motor
- » Multiple continuous fan speed options offer quiet air circulation
- » Color-coded low-voltage terminals with provisions for electronic air cleaner and humidifier
- » All models comply with CA Low NO_x standards
- » Designed for multi-position installation: Upflow, horizontal left or right
- » Certified for direct vent (2-pipe) or non-direct vent (1-pipe)
- » Easy-to-install top venting with optional side venting
- » Convenient left or right connection for gas and electrical service
- » Cabinet air leakage (Q_{Leak}) ≤ 1.4%
- » Heavy-gauge steel cabinet with durable finish
- » Foil-faced insulated heat exchanger cabinet

The Daikin brand DR96SC-ULN Single-Stage gas valve, Variable-Speed blower motor and communicating systems furnace provides exceptional indoor comfort and quiet operation. Features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system. This furnace is run-tested for heating or combination heating/cooling applications.

Not only will this furnace provide your family with years of reliable warmth in even the harshest winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 96% AFUE compared to lower AFUE furnaces.

- » Airtight solid bottom or side return with easy-cut tabs for effortless removal in bottom air-inlet applications
- » All Ultra-Low NO_x DM96SE-U models comply with the 14 ng/J emission limit specified in the South Coast Air Quality Management District (SCAQMD) Rule 1111 and San Joaquin Valley Air Pollution Control District (SJVAPCD) Rule 4905. Learn more at www.aqmd.gov and www.valleyair.org.

Gas Furnace, Up to 92% AFUE

Product Features

- » Multi-position installation: upflow, horizontal left or right
- » Heavy-duty stainless-steel tubular heat exchanger
- » Stainless-steel secondary heat exchanger
- » Single-stage gas valve
- » Durable Silicon Nitride igniter
- » Energy-efficient multi-speed (9-speed tap) ECM blower motor
- » Quiet single-speed induced draft blower
- » Fully insulated heat exchanger and blower section
- » Self-diagnostic control board with constant memory fault code history output to a 3-digit 7 segment LED display and push buttons
- » AHRI Certified; ETL Listed
- » Can not be installed in California's South Coast Air Quality Management District (SCAQMD) and San Joaquin Valley Air Pollution Control District (SJVAPCD).
- » All models comply with CA Low NO_x standards).

The Daikin brand DR92SN 9-Speed ECM, Single-Stage gas valve, Multi-Position Gas Furnace features our heavy-duty stainless-steel tubular heat exchanger and durable silicon nitride hot-surface ignition system. This furnace is run-tested for heating or combination heating/cooling applications.

Not only will this furnace provide your family with years of reliable warmth in even the harshest winters, it will do so economically. This quiet furnace delivers a money-saving efficiency of up to 92% AFUE compared to lower AFUE furnaces.

Gas Furnace, Up to 80% AFUE

COMFORTABLE LIMITED
WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, [6-Year or 12-Year] Unit Replacement Limited Warranty, and 99-Year Heat Exchanger Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the [6-Year or 12-Year] Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Heavy-duty stainless-steel dual-diameter, tubular heat exchanger
- » Two-stage gas valve provides quiet, economical heating
- » Durable Silicon Nitride igniter
- » Quiet two-speed draft inducer
- » Self-diagnostic control board with constant memory fault code history output to a dual 7-segment display
- » Color-coded low-voltage terminals with provisions for electronic air cleaner and humidifier
- » Efficient and quiet variable-speed airflow system gently ramps up or down according to heating or cooling demand
- » Multiple continuous fan speed options offer quiet air circulation
- » Auto-Comfort and enhanced dehumidification modes available
- » California Low NO_x emissions-compliant models available
- » Can no longer be installed in California's South Coast Air Quality Management District (SCAQMD) on or after October 1, 2019

The Daikin brand DR80TC two-Stage gas valve, Variable-Speed blower motor Multi-Position gas furnace provides exceptional indoor comfort and quiet operation. It is compatible with Daikin *ONE+* smart thermostat and other Daikin communicating equipment and Efficient and quiet variable-speed airflow system gently ramps up or down according to heating or cooling demand.

- » AHRI Certified; ETL Listed
- » Multi-position installation:
DR80TC: Upflow, horizontal left or right.
Convenient left or right connection for gas and electrical service
- » Cabinet air leakage ($Q_{Leak} \leq 2\%$)
- » Heavy-gauge steel cabinet with durable baked-enamel finish
- » Fully insulated heat exchanger and blower section

Unitary – Air Handlers & Coils

Daikin *FIT* Air Handler DFVE (R-32) Multi-Position | Variable-Speed

COMFORTABLE LIMITED
WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

Product Features

- » Electronic Expansion Valve (EEV) for cooling and heat pump applications.
- » 7mm evaporator coil tube size
- » Variable-speed ECM blower motor
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » CFM indicator
- » Thermostat provides adjustable low CFM for efficient fan-only operation
- » All-aluminum evaporator coil
- » Fault recall of six most recent faults
- » Improved humidity and comfort control
- » Optimized for use with R-32 refrigerant
- » AHRI certified; ETL listed
- » UL 60335 2-40 Compliant
- » Factory installed leak detection sensor designed for lifespan of coil
- » 3 kW – 25 kW electric heater kits

The Daikin brand DFVE Multi-Position, Variable-Speed Air Handler is part of our family of communicating units and optimized for use with the chlorine-free refrigerant, R-32. This unit's ECM indoor blower motor allows for a soft start and stop, which offers a quiet, efficient operation and helps reduce the cold blast of air upon heating start-up.

AMST (R-32)

Air Handle
Multi-Position, Multi-Speed,
ECM-Based

Product Features

- » Internal factory-installed thermal expansion valves for cooling and heat pump applications
- » 7mm evaporator coil tube size on 1½ - 3½ Ton models and ¾" evaporator coil tube size on 4 to 5 Ton models
- » Direct-Drive, 9-speed ECM blower motor
- » All-aluminum evaporator coil with high performance coated fin stock
- » Coil mounting track for quick repositioning
- » Optimized for use with R-32 refrigerant
- » Cabinet air leakage less than 2.0% at 1.0 inch H₂O when tested in accordance with ASHRAE standard 193
- » Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRAE standard 193
- » 3 kW – 25 kW electric heater kits
- » AHRI certified; ETL listed
- » UL 60335 2-40 Compliant
- » Factory installed R-32 sensor designed for lifespan of coil
- » Rigid SmartFrame™ cabinet
- » Horizontal or vertical configuration capabilities
- » 21" depth for easier attic access
- » DecaBDE-free thermoplastic drain pan with secondary drain connections

The AMST Multi-Position, 9-Speed ECM air handler with internal TXV is optimized for single-stage AC and HP outdoor units up to 15.2 SEER2.

- » Screw-less sides and back helps to reduce condensation when installed in humid locations
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Galvanized, leather grain-embossed finish
- » Glue-less cabinet insulation retention
- » Tool-less filter access

Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

Product Features

- » Variable-speed ECM blower motor
- » Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
- » Advanced configuration of the airflow and tonnage in communicating mode
- » Available in both 230V and 115V configurations
- » Provides constant CFM over a wide range of static pressure conditions independent of duct system
- » CFM indicator
- » Fault recall of six most recent faults
- » Provides adjustable low CFM for efficient fan-only operation
- » Integrated communicating ComfortNet Technology
- » Engineered for compatibility with all Daikin *FIT* families (Up to 19 SEER2)
- » Built-in dehumidification feature
- » Blower section usable as an electric feature
- » Control board includes a blower time-delay in the cooling mode
- » Compatible with R-410A and R-32 Refrigerant
- » For R-32 compatibility utilize the integration kit
- » UL 60335 2-40 Compliant
- » Horizontal or vertical configuration capabilities
- » 21" depth for easier attic access
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation

The Daikin brand MBVK modular blower are tailor made for exceptional energy efficiency. The MBVK's ECM indoor blower motor assemblies increase both installation and application flexibility. Can be matched with cased coils for upflow, downflow, and horizontal applications.

- » Galvanized, leather grain-embossed finish
- » Cabinet air leakage less than 2% at 1.0 inch H₂O when tested in accordance with ASHRE standard 193
- » Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRE standard 193
- » Field installed 3 stage electric heater kits available for the *FIT* Aurora compatible MBVK***H models. Standard heat kits available for the MBVK***P as field installed options as well.
- » AHRI certified; ETL listed

Product Features

- » AWST Models: Equipped with a fully adjustable TXV
- » Installation Options - Wall Mount
- » Direct-drive
- » Multi-speed motors allows air volume variation for heating/cooling
- » Sequence-controlled »Rust-resistant nickel chromium heating elements of 3/ 5/ 8 and 10 kW
- » Aluminum tubing coils on all models
- » Cabinet air leakage less than 2.0% at 1.0 inch H₂O when tested in accordance with ASHRAE standard 19
- » Factory installed R-32 sensor designed for the lifespan of the coil.
- » Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRAE standard 193
- » Factory-installed pull-type disconnect
- » Thermoplastic drain pan with bottom primary and secondary drain connections
- » Built-in filter rack (filter included)
- » Large chassis (2½- and 3-ton units) – front return only
- » Small chassis (1½- and 2-ton units)– front or bottom return
- » Wall-hanging bracket provided
- » AHRI Certified; ETL Listed

The Daikin brand AWST air handler is designed to be vertically wall- or stud mounted. This unit is equipped with a fully adjustable TXV and direct-drive, multi-speed motor. The AWST is housed in a fully insulated, galvanized steel cabinet. Supports 2023 DOE Energy Efficiency Standards

Product Features

- » All-Aluminum tube/aluminum fin coil
- » Direct-drive, resilient-mount, multi-speed motor
- » Sequence-controlled and rust-resistant nickel chromium heating elements of 5, 6, 8 and 10 kW
- » High-efficiency evaporator coil
- » Quiet operation
- » AHRI Certified; ETL Listed
- » Primary/secondary drain connection in a high-temperature plastic drain pan
- » Suitable for free-return installation (non-ducted return air)
- » Galvanized-steel construction
- » Factory-installed pull-type disconnect
- » Easy service access
- » ACST Models: Equipped with a factory installed and fully adjustable TXV for improve performance
- » Factory installed casing along with mounting brackets for all tonnages
- » Configurable front and bottom return for all tonnages
- » Factory installed R-32 sensor designed for the lifespan of the coil
- » Optimized for the use with R-32 refrigerant
- » Cabinet air leakage less than 2.0 at 1 inch H₂O when test in accordance with ASHRAE standard 193
- » Cabinet air leakage less than 1.4 at 1 inch H₂O when test in accordance with ASHRAE standard 193

The Daikin brand ACST Electric Heat Air Handler is designed to be ceiling-mounted. This unit features a TXV and direct-drive, resilient-mount, multi-speed motor. The ACST has galvanized-steel construction and quiet operation.

Product Features

- » All-Aluminum evaporator coil
- » Optimized for use with R-32 refrigerant including circuits and manifolds
- » R-32 sensor designed for the life span of the coil
- » CAHEA models feature:
 - » Factory-installed electronic expansion valve (EEV) for precise refrigerant control
 - Compatible with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
 - Cooling and heat pump applications
 - Fault recall of six most recent faults
- » EEV Control Box located inside coil
- » CAHEA include single front access panel
- » Multi-position, Upflow/downflow, horizontal applications
- » Horizontal or vertical configuration capabilities
- » Foil-faced insulation covers the internal casing to reduce cabinet condensation
- » Galvanized, leather grain-embossed finish
- » Rust resistant, thermoplastic drain pans featuring a low water-retention design
- » DecaBDE-free thermoplastic drain pan with secondary drain connections
- » Drain pan rails designed to remove and reposition coils with ease without compromising structural integrity
- » UV-resistant drain pan
- » AHRI certified; ETL listed

The Daikin CAHEA Multi-Position, cased coil is part of our family of communicating units and optimized for use with the chlorine-free refrigerant, R-32. This unit's variable speed modular (MBVK)* blower motor allows for a soft start and stop, which offers a quiet, efficient operation and helps reduce the cold blast of air upon heating start-up.

*MBVK blower sold separately

All Aluminum Coils

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

CAPEA / CHPEA All Aluminum Coils

- » Available in 1.5-Ton through 5-Ton capacities
- » Engineered for compatibility with Daikin *F/T* outdoor units
- » Electronic Expansion Valve (EEV) models feature
 - Compatibility with the Daikin *ONE+* and Daikin *ONE* Touch smart thermostats and other Daikin communicating equipment
 - Cooling and heat pump applications
 - Fault recall of six most recent faults
 - PID control loop for precision capacity control
- » Seamless integration to full suite of Daikin controls using communicating control board
- » Light weight all aluminum evaporator coil
 - 7mm evaporator coil tube size (CAPEA & CHPEA)
- » Air cleaner and humidifier integration capable (rules apply, refer to installation manual for details).
- » UV and rust resistant, 5VA rated thermoplastic drain pan with integrated secondary drain
- » Foil-faced insulation covers internal casing to reduce cabinet condensation
- » Single front access panel
- » Ships factory standard up flow with easy field conversion to downflow (CAPEA)
- » CHPEA is for horizontal applications
- » CAPEA is for upflow/downflow applications

Product Features

- » Energy-efficient compressor with internal relief valve
- » Multi-Speed ECM indoor blower motor
- » Quiet horizontal discharge
- » All-aluminum evaporator coil
- » Copper tube / aluminum fin condenser coil
- » Totally enclosed, permanently lubricated condenser fan motor
- » Fully charged R-410A system
- » Electric heat kit available as a field-installed option
- » Heavy-gauge galvanized-steel cabinet with attractive Nickel Gray powder-paint finish
- » Compressor sound blanket
- » One foot print; 2 heights
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Meets cabinet air leakage requirements when tested in accordance with ASHRAE standard 193
- » Fully insulated blower compartment with convenient access panels
- » Louvered condenser coil protection
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)
- » AHRI Certified; ETL listed

The DP3CH packaged home air conditioner is designed for horizontal installation. It comes with an energy-efficient scroll compressor that delivers dependable cooling for lower energy bills compared to lower SEER2 units. Plus, you will be happy to know that your Daikin system uses chlorine-free R-410A refrigerant. Our packaged air conditioner units are also furnished with a variable-speed ECM blower motor that offers silent system startup and shutdown with extremely efficient performance. The heavy-gauge galvanized steel enclosure with a powder-coat finish will shield your system from extreme weather. Supports 2023 DOE Energy Efficiency Standards

DP5HH (R-32)

Packaged Heat Pumps Up to 15.2 SEER2

Product Features

- » High-efficiency scroll compressor
- » Variable-speed ECM blower motor
- » Quiet horizontal discharge
- » All-aluminum evaporator coil
- » Copper tube/aluminum fin coil
- » Totally enclosed, permanently lubricated condenser fan motor
- » Fully charged system
- » Electric heat kit available as a field-installed option
- » AHRI Certified; ETL Listed
- » Heavy-gauge galvanized-steel cabinet
- » UV-resistant grey powder-paint finish
- » Compressor sound blanket
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Meets cabinet air leakage requirements when tested in accordance with ASHRAE standard 193
- » Attractive Nickel Gray powder-paint finish
- » Fully insulated blower compartment has convenient access panels
- » Louvered condenser coil protection
- » One footprint; three heights
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

The DP5HH packaged heat pump has a high-efficiency scroll compressor that provides optimal performance. Two-stage* heating and cooling, a variable-speed ECM blower motor, and an all-aluminum evaporator coil are only a few of the features that come stock with this 15.2 SEER2 heat pump system. The heavy-gauged galvanized-steel cabinet with nice-looking nickel gray powder-paint finish makes this unit very attractive. Supports 2023 DOE Energy Efficiency Standards.

*Model specific, please refer to product specifications for more information.

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive 6-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Additional requirements for annual maintenance are required for the 6-Year Unit Replacement Limited Warranty. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

Product Features

- » High-efficiency two-stage scroll compressor
- » Two-stage heating & cooling
- » Variable-speed ECM blower motor 2 to 4-ton units
- » Multi-speed ECM indoor blower motor 5-ton units
- » Liquid-line filter drier
- » Copper tube/aluminum fin condenser coils
- » All-aluminum evaporator coil (2-4 Ton)
- » Copper Tube/ Aluminum Fin Evaporator coil (5 Ton)
- » Compressor sound blanket
- » Electric heat kit available as a field-installed option
- » Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant grey powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Horizontal or downflow application
- » Convenient access panels
- » Meets cabinet air leakage requirements when tested in accordance with ASHRAE standard 193
- » Louvered condenser coil protection
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)
- » AHRI Certified; ETL Listed

The DP5HM packaged heat pump has an energy-efficient compressor that provides optimum performance. Two-stage* heating and cooling, a variable-speed ECM blower motor, and an aluminum evaporator coil are just a few features that come standard with this 15.2 SEER2 heat pump system. The fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant grey powder-paint finish (Sandstone Beige for the 5-ton model) makes this unit very attractive. Supports 2023 DOE Energy Efficiency Standards.

* Model specific, please refer to product specifications for more information.

DP3HH (R-32)

Packaged Heat Pump
Up to 13.4 SEER2 / 6.70 HSPF2

Product Features

- » Energy-efficient compressor with internal relief valve
- » Multi-speed ECM indoor blower motor
- » Quiet horizontal discharge
- » Copper tube/corrosion-resistant fin
- » Totally enclosed, permanently lubricated condenser fan motor
- » Fully charged system
- » Electric heat kit available as a field-installed option
- » Compressor sound blanket
- » AHRI Certified; ETL listed
- » Heavy-gauge galvanized-steel cabinet with attractive Nickel Gray powder-paint finish
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Meets cabinet air leakage requirements when tested in accordance with ASHRAE standard 193
- » Fully insulated blower compartment has convenient access panels
- » Louvered condenser coil protection
- » One footprint; three heights
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

The Daikin brand DP3HH Energy-Efficient Packaged Heat Pump features energy-efficient cooling and heating performance in one self-contained unit. This unit is housed in a heavy-gauge, galvanized-steel cabinet protected by a high-quality, UV-resistant powder-paint finish. The DP3HH allows for ground-level or rooftop applications. Supports 2023 DOE Energy Efficiency Standards

Packaged Gas & Electric
Up to 15.2 SEER2 / 8.0 HSPF

Product Features

- » Heavy-duty stainless-steel heat exchanger
- » High-efficiency two-stage scroll compressor with factory-installed sound blanket
- » Multi-speed ECM indoor blower motor
- » Copper tube/aluminum fin evaporator coil (5 Ton)
- » All-aluminum evaporator coil (2-4 Ton)
- » Two-stage gas valve; natural gas with easy conversion to propane
- » Power-assisted combustion
- » All blower operation and all safety circuits complete with self-diagnostics
- » Loss-of-charge protection and high-pressure switch
- » Direct-spark ignition system with microprocessor-based control for the entire ignition sequence
- » Can not be installed in California's South Coast Air Quality Management District (SCAQMD) and San Joaquin Valley Air Pollution Control District (SJVAPCD).
- » All models comply with California Low NO_x standards.
- » AHRI Certified; ETL Listed
- » Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant grey powder-paint finish (Sandstone Beige for the 5-ton model)
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Louvered condenser coil protection
- » Compressor sound blanket
- » Compressor grommets for vibration isolation
- » Horizontal or downflow application
- » Convenient access panels
- » Bottom 2" high base rails for easier handling
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

The DP5GM gas/electric packaged unit has an energy-efficient compressor that provides optimum performance. Two-stage heating and cooling, a variable-speed ECM blower motor, and an aluminum evaporator coil are just a few features that come standard with this 15.2 SEER2 gas/electric packaged unit. The fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant grey powder-paint finish (Sandstone Beige for the 5-ton model) makes this unit very attractive. Supports 2023 DOE Energy Efficiency Standards.

COMFORTABLE LIMITED WARRANTY* PROTECTION

* Complete warranty available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty and 99-Year Heat Exchanger Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.daikincomfort.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

Product Features

- » Heavy-duty stainless-steel heat exchanger
- » Energy-efficient scroll compressor
- » Multi-Speed ECM indoor blower motor
- » Single-stage gas valve
- » All-aluminum evaporator coil
- » Flowrater expansion device on 2- to 4-ton units
- » TXV expansion device on 5-ton units
- » Power-assisted combustion
- » Direct spark ignition system includes a microprocessor-based control for the entire ignition sequence, all blower operation, and all safety circuits complete with self-diagnostics
- » All Ultra-Low NO_x DP3UM models comply with the 14 ng/J emission limit specified in the South Coast Air Quality Management District (SCAQMD) Rule 1111 and San Joaquin Valley Air Pollution Control District (SJVAPCD) Rule 4905. Learn more at www.aqmd.gov and www.valleyair.org.
- » AHRI Certified
- » ETL Listed
- » Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant powder-paint finish
- » Horizontal or downflow application
- » Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- » Compressor sound blanket
- » Convenient access panels
- » One roof curb fits all units
- » One foot print: two heights
- » Bottom, 2" high base rails for easier handling
- » One footprint; two heights
- » When properly anchored, meets the 2023 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

The DP3UM Ultra-Low NO_x gas/electric packaged air conditioner offers energy-efficient cooling and heating performance in one self-contained unit. It comes with a factory-installed compressor sound blanket that provides great noise dampening. Heavy-duty stainless-steel heat exchanger, all-aluminum evaporator coil, and multi-speed ECM blower motor are just a few features that come stock with this 13.4 SEER2 gas / electric HVAC unit. The fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant gray powder-paint finish makes this unit very attractive. Supports 2023 DOE Energy Efficiency Standards.

PROTECT THEIR INVESTMENT FOR YEARS TO COME. *ASURE* EXTENDED SERVICE PLAN

ASURE
EXTENDED SERVICE PLAN

Daikin brand equipment is optimized to provide premium comfort through the latest innovations. However, any mechanical product occasionally fails. As an authorized *ASURE* dealer, you can offer your customer extended service agreements as a safeguard from those occasional failures.

The *ASURE* program provides your business with the following benefits:

- » Adds value to homeowner's purchase. Provides the homeowner peace-of-mind that they have protected their investment and guaranteed their comfort system for the terms of their agreement against unplanned repair bills.
- » Builds your customer base. By providing your customer with worry-free comfort, you earn your customer's loyalty and confidence, along with that of their friends and neighbors. What better way is there to grow your business?

What is covered?

ASURE provides coverage on all functional parts of Daikin brand $\frac{3}{4}$ -through-5 ton, single-phase ductless HVAC products. Coverage may be offered on equipment that has been installed within the last year. Routine maintenance and the cost to correct failures other than those considered to be manufacturing defects are excluded from coverage. For more information, please visit www.daikincomfort.com.

About Daikin:

Daikin Industries, Ltd. (DIL) is a Fortune 1,000 company with more than 100,000 employees worldwide and a leading indoor comfort solutions provider. Daikin Comfort Technologies North America, Inc. (DNA) is a subsidiary of DIL, providing Daikin, Goodman, Amana Brand, and Quietflex brand products. DNA and its affiliates manufacture heating and cooling systems for residential, commercial, and industrial use that are sold via independent HVAC contractors. DNA engineering and manufacturing is headquartered at Daikin Texas Technology Park near Houston, TX. For additional information, visit www.daikincomfort.com.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Our continuing commitment to quality products may mean a change in specifications without notice.
